

Title	Demonstrate knowledge of Proprietary Plaster Cladding Systems trade tools		
Level	2	Credits	4

Purpose	People credited with this unit standard are able to: identify and describe the use of Proprietary Plaster Cladding Systems trade tools in accordance with work site practice; and describe the maintenance of Proprietary Plaster Cladding Systems trade tools to ensure good working order.
----------------	--

Classification	Construction Trades > Proprietary Plaster Cladding Systems
-----------------------	--

Available grade	Achieved
------------------------	----------

Guidance Information

- 1 Definition
Work site practice refers to the documented procedures specific to a work site, which set out the standard and required practices of that work site.

- 2 Legislation, regulations, codes and standards relevant to this unit standard include:
 Health and Safety in Employment Act 1992;
 Health and Safety in Employment Regulations 1995;
 Resource Management Act 1991;
 Hazardous Substances and New Organisms Act 1996;
 Building Act 2004;
 NZS 4218:2004 *Energy efficiency – Small building envelope* and NZS 3604:1999 *Timber Framed Buildings*, available from Standards NZ (<http://www.standards.co.nz>);
 New Zealand Building Code;
 Territorial Authorities' building regulations.

Outcomes and performance criteria

Outcome 1

Identify and describe the use of Proprietary Plaster Cladding Systems trade tools in accordance with work site practice.

Range hand tools – tape measure, straight edge, level, string line, shears, scribe, saw, rasp, hammer, trowel, corner trowel, broadknife, float, sponge, masking machine, cartridge gun, knife, hawk, chalkline, screed, square, sharpening stone, staple gun;
 power tools – drill, grinder, saw, hot knife, mixer, compressor and spray gun, plaster pump, pneumatic nailer.

Performance criteria

- 1.1 Tools are described in terms of their capabilities and limitations.
- 1.2 Use of tools is described in terms of the work operation to be completed.
- 1.3 Use of tools is described in terms of safety requirements.
Range hazards, risks, precautions.
- 1.4 Tools are identified in relation to proprietary plastering requirements.

Outcome 2

Describe the maintenance of Proprietary Plaster Cladding Systems trade tools to ensure good working order.

Range hand tools – tape measure, straight edge, level, string line, shears, scribe, saw, rasp, hammer, trowel, corner trowel, broadknife, float, sponge, masking machine, cartridge gun, knife, hawk, chalkline, screed, square, sharpening stone, staple gun;
power tools – drill, grinder, saw, hot knife, mixer, compressor and spray gun, plaster pump, pneumatic nailer.

Performance criteria

- 2.1 Care and maintenance of tools are described as recommended by the manufacturer.
- 2.2 Cutting edges and points are evaluated to determine the cutting efficiency in accordance with manufacturer's recommendations.
- 2.3 Methods for maintaining tools in good working order are described and are consistent with work site practice.

This unit standard is expiring. Assessment against the standard must take place by the last date for assessment set out below.

Status information and last date for assessment for superseded versions

Process	Version	Date	Last Date for Assessment
Registration	1	23 June 2000	31 December 2024
Review	2	24 January 2006	31 December 2024
Review	3	26 January 2007	31 December 2024
Revision	4	25 January 2008	31 December 2024
Review	5	30 June 2022	31 December 2024
