

Sew sleeves in garments

Level 3

Credits 3

Purpose People credited with this unit standard are able to demonstrate knowledge of garment sleeves, and sew sleeves in a garment.

Subfield Clothing Manufacture

Domain Apparel Cutting and Sewing

Status Registered

Status date 19 June 2009

Date version published 19 June 2009

Planned review date 31 December 2015

Entry information Open.

Accreditation Evaluation of documentation and visit by NZQA and industry.

Standard setting body (SSB) Competenz

Accreditation and Moderation Action Plan (AMAP) reference 0030

This AMAP can be accessed at <http://www.nzqa.govt.nz/framework/search/index.do>.

Special notes

- 1 This unit standard is primarily intended for people who are studying garment construction in a school or early tertiary learning environment. It may also be used by people in the workplace who are undertaking introductory level training in garment construction.
- 2 This unit standard is not intended to include specialist materials such as leather. Corresponding skills and knowledge relating to leather garments are covered in Unit 2619, *Sew sleeves in a leather garment in a commercial manufacturing workplace*.
- 3 Performance of the elements must comply with the Health and Safety in Employment Act 1992.
- 4 Range
any two of – set-in, raglan, drop shoulder.

5 Definitions

Garment assembly instructions refer to the documentation that the training provider gives to each student at the start of each garment assembly assignment. This documentation sets out the fabric to be used for the garment, the size range of the order, the garment assembly sequence, garment finishing procedures, and the garment component specifications.

Workroom quality standards refer to the expected characteristics of a completed piece of sewn work in terms of the sewing details and overall finish and appearance. Quality standards will include such things as seams being straight, flat, and the correct width.

Elements and performance criteria

Element 1

Demonstrate knowledge of garment sleeves.

Performance criteria

- 1.1 Types of sleeve are identified and described in terms of their features and use.
- 1.2 Sleeve is described in terms of construction and fitting considerations.

Element 2

Sew sleeves in a garment.

Performance criteria

- 2.1 Sleeves are sewn into garment according to garment assembly instructions and workroom quality standards.

Range nicks joined, seam eased, no puckers, sleeve even.
- 2.2 Shoulder pads are fitted when required and sit according to garment assembly instructions and workroom quality standards.
- 2.3 Sleeves fit and hang according to garment assembly instructions and workroom quality standards.

Please note

Providers must be accredited by NZQA, or an inter-institutional body with delegated authority for quality assurance, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be accredited by NZQA before they can register credits from assessment against unit standards.

Accredited providers and Industry Training Organisations assessing against unit standards must engage with the moderation system that applies to those standards.

Accreditation requirements and an outline of the moderation system that applies to this standard are outlined in the Accreditation and Moderation Action Plan (AMAP). The AMAP also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.
