

Title	Develop a plan for off-road light 4WD vehicle driving		
Level	3	Credits	2

Purpose	People credited with this unit standard are able to plan for off-road light 4WD vehicle driving.
----------------	--

Classification	Driving > Specialist Driving Knowledge and Skills
-----------------------	---

Available grade	Achieved
------------------------	----------

Guidance Information

- 1 Assessment will be of a plan produced by the candidate for a 4WD trip over a minimum of one working day.
- 2 It is recommended that people seeking credit for this unit standard first hold credit for Unit 17976, *Demonstrate knowledge of operating a light 4WD vehicle in an off-road environment*.
- 3 Evidence presented for assessment against this unit standard must be consistent with safe working practices and be in accordance with applicable company requirements and legislative requirements. This includes the knowledge and use of suitable tools and equipment.
- 4 Legislation, regulations and/or industry standards relevant to this unit standard include but are not limited to the:
 - Health and Safety at Work Act 2015; and any subsequent amendments and replacements.
- 5 Definitions

Company requirements refer to instructions to staff on policy and procedures that are available in the workplace. These requirements may include – company policies and procedures, work instructions, product quality specifications and legislative requirements.

Light 4WD vehicle refers to any four-wheel vehicle with a gross laden weight less than 3500kg and capable of having motive power applied simultaneously to all four wheels. It does not include an all-terrain vehicle.

Off-road means a surface other than a sealed or unsealed road or track and includes but is not limited to bush tracks, beaches, river beds and open paddocks.

Outcomes and performance criteria

Outcome 1

Develop a plan for off-road light 4WD vehicle driving.

Performance criteria

- 1.1 A route plan is developed that is consistent with the characteristics and capabilities of light 4WD vehicles and is within drivers' abilities.
- 1.2 Environmental conditions confirmed as suitable for the journey are included in the plan, and actions taken to manage them are identified.
- 1.3 Communication and safety factors are included in the plan.
- 1.4 Vehicle equipment to be inspected for condition and suitability for the journey is included in the plan.
