## Guidance Information

- 1 Definitions
 

*Legislative requirements* refer to the obligations of the employer and/or employee under the Health and Safety at Work Act 2015 and Health (Hairdressers) Regulations 1980.

*Workplace requirements* mean the practices prescribed by management as being the quality standards for client contact and work organisation for a particular barber shop, salon or other business that may also perform barbering services.
- 2 In this unit standard all work must comply with legislative requirements and must ensure optimum hair condition and maximum client comfort at all times.
- 3 For assessment against this unit standard, hair to be blow dried should previously have been cut using barbering techniques.
- 4 Range
 

Barbering techniques refer to brush or comb to create direction, and free hand work. Assessment of both techniques is required.

---

## Outcomes and performance criteria

### Outcome 1

Prepare hair for blow drying using barbering techniques.

### Performance criteria

- 1.1 Identify and confirm the work needed with the client.

- 1.2 Analyse the hair and scalp in accordance with workplace requirements.
- Range porosity, elasticity, texture, density, length, scalp conditions, growth patterns, previous product build-up.
- 1.3 Select the style to be blow dried in accordance with confirmed outcome and compatibility with hair and scalp analysis.
- 1.4 Protect the client against water and/or product spillage.
- Range may include but is not limited to – cape, towel, neck strip.
- 1.5 Select tools to meet the requirements of selected style.
- 1.6 Prepare hair for blow drying in accordance with hair and scalp analysis, product instructions, and confirmed outcome.
- Range includes but is not limited to – hydrogen bonds broken.

## **Outcome 2**

Blow dry hair using barbering techniques.

### **Performance criteria**
