<b>Entry information</b>	
<b>Recommended skills and knowledge</b>	Unit 20182, <i>Use equipment in a bicycle workshop</i> .

### Explanatory notes

- 1 This unit standard has been designed for learning and assessment in a repair workshop using commercial or non-commercial jobs. The emphasis is on the use of correct workshop repair procedures for the full range of bicycle components. Unit 20698, *Repair bicycle components*, assesses repair work for a minimum of three commercial jobs and must be assessed under normal workplace conditions.
- 2 All tasks are to be carried out in accordance with organisational procedures, the organisation being the enterprise carrying out the work.
- 3 Reference texts may include but are not limited to – Barnett, John. *Barnett's Manual DX*. Current edition. Colorado Springs, Co: Barnett Bicycle Institute, and those that come with the bicycle.
- 4 Performance of the elements of this unit standard must comply with the following standards, available through [www.standards.govt.nz](http://www.standards.govt.nz):  
 Australian/New Zealand Standards
  - AS/NZS 1927: 2010 *Pedal bicycles – Safety requirements*;
 New Zealand Standards
  - NZS 5441.1:1987 *Lighting and retroreflectors for pedal cycles – Specification for lamp units and retroreflectors suitable for fitting to pedal cycles*;
  - NZS 5441.2:1987 *Lighting and retroreflectors for pedal cycles – Code of practice for the fitting of lamp units and retroreflectors to pedal cycles*.

5 Any relevant Acts, regulations, and bylaws must be complied with during assessment against this standard.

6 Definitions

*Bicycle components* include:

wheels – hubs, spokes, rims, tyres, tubes;

drive chain – bottom bracket, chain wheel, chain, pedals, cluster;

gears – shifters, cables, derailleurs;

brakes – levers, cables, callipers, pads;

steering – headset, stem, bars, grips;

frames – drop out, forks, suspension, frame parts;

seat – seat, post.

*Organisational procedures* referred to in this unit standard may include but are not limited to the applicable procedures found in the following: organisational performance guidelines and standards; manufacturer's procedures and specifications; Government and local body legislation.

*Tools and equipment* means industry approved tools and equipment that are recognised within the industry as being the most suited to complete a task in a safe, professional and competent manner.

## Outcomes and evidence requirements

### Outcome 1

Identify and describe potential faults in bicycle components.

#### Evidence requirements

1.1 Potential faults are identified and described for each component.

Range may include but is not limited to – faults in relation to manufacturer's specifications, relevant Australian/New Zealand Standards, customer's needs or requests, Consumer Guarantees Act 1993 and/or warranties; evidence for at least two faults per component is required.

### Outcome 2

Repair faults in bicycle components.

Range evidence is required for repairing two faults for each component.

#### Evidence requirements

2.1 Repairs are carried out.

2.2 Broken and bent parts are repaired or replaced.

2.3 Moving parts are set up.

2.4 Tools and equipment used enable repairs to be carried out.

2.5 Components are repaired.

2.6 Work documentation is completed.

### Outcome 3

Test repaired bicycle components.

Range evidence is required for testing of each repaired component.

### Evidence requirements

3.1 Repaired components are tested for safety and efficiency.

Range safety and efficiency – stable handling, turning and steering; no failure in parts of the bicycle; no loosening or misalignment of seat, handlebars, controls, reflectors; no loss of components or accessories.

<b>Planned review date</b>	31 December 2021

### Status information and last date for assessment for superseded versions

Process	Version	Date	Last Date for Assessment
Registration	1	25 February 2004	31 December 2018
Rollover and Revision	2	20 June 2008	31 December 2018
Review	3	8 December 2016	N/A

<b>Consent and Moderation Requirements (CMR) reference</b>	0225
--	------

This CMR can be accessed at <http://www.nzqa.govt.nz/framework/search/index.do>.

### Please note

Providers must be granted consent to assess against standards (accredited) by NZQA, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be granted consent to assess against standards by NZQA before they can register credits from assessment against unit standards.

Providers and Industry Training Organisations, which have been granted consent and which are assessing against unit standards must engage with the moderation system that applies to those standards.

Requirements for consent to assess and an outline of the moderation system that applies to this standard are outlined in the Consent and Moderation Requirements (CMR). The CMR also includes useful information about special requirements for organisations wishing

to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.
