Title: Teach Fundamental Orientation and Mobility as it relates to blind and visually impaired adults

Level: 5  Credits: 4

Purpose:
This unit standard is designed for workplace training of Fundamental Orientation and Mobility instructors in the field of blindness or vision impairment.

People credited with this unit standard are able to: demonstrate knowledge of Fundamental Orientation and Mobility discipline, strategies, and variation techniques for teaching guiding and independent travel skills; teach guiding and independent travel skills; and produce, evaluate, and utilise orientation aids.

Classification: Human Services > Rehabilitation and Habilitation of the Visually Impaired

Available grade: Achieved

Prerequisites:
Unit 1820, Demonstrate the skills required to assist a person with blindness or vision impairment to travel, or demonstrate equivalent knowledge and skills.

Guidance Information
1. The following apply to the performance criteria of all elements in this unit standard:
   All activities must comply with the policies, procedures, ethical codes and standards, and requirements of the organisations involved.
   All activities must comply with the relevant cultural, legislative and/or regulatory requirements including the rights and responsibilities outlined in Code of Health and Disability Services Consumers’ Rights 1996, and the Health and Safety in Employment Act 1992, and their subsequent amendments.

2. Definitions
   Organisational standards refers to the procedures regarded as effective practice by the Royal New Zealand Foundation for the Blind (RNZFB) or equivalent professional organisations, and includes compliance with in-house rules and regulations, and specific data collection systems, and industry texts.
   Consumer refers to an individual who meets current RNZFB or equivalent professional organisation membership criteria.
   Blindness, visual impairment, and vision impairment refer to the functional state of meeting current definitions of membership of the RNZFB or equivalent professional organisations.
Workplace refers to the RNZFB or equivalent professional organisation contexts of service delivery.  
Short indoor route refers to a route which takes less than half an hour to complete.

3 Assessment information
The knowledge and skills evidence in this unit standard must be consistent with current industry texts and documented RNZFB or equivalent professional organisation competency criteria.  
The assessment must ensure the privacy and rights of people who have disabilities will be respected at all times.  
The context of the skill assessment should be a safe indoor environment. Routes must be able to be accomplished in one session of less than ½ hour.

Outcomes and performance criteria

Outcome 1
Demonstrate knowledge of Fundamental Orientation and Mobility discipline.

Performance criteria

1.1 Terms are defined and distinguished between in accordance with organisational standards.

Range terms must include but are not limited to - orientation, mobility, Orientation and Mobility, specialist, Fundamental Orientation and Mobility.

1.2 Professional boundaries of people working in Fundamental Orientation and Mobility education are explained in accordance with organisational standards.

Range specialist, generic disability worker, Indoor Orientation and Mobility.

1.3 Strategies for teaching Fundamental Orientation and Mobility are described in accordance with organisational standards.

Range descriptions must include but are not limited to - reinforcement, prompting, chaining, success orientation, task analysis.
