

Title	Demonstrate knowledge and skills for drycleaning machine operation		
Level	4	Credits	2

Purpose	This unit standard is for people working in the drycleaning industry. People credited with this unit standard are able to: describe the operation of a drycleaning machine; and demonstrate knowledge of emergency response procedures for drycleaning operations.
----------------	--

Classification	Cleaning and Caretaking > Drycleaning
-----------------------	---------------------------------------

Available grade	Achieved
------------------------	----------

Entry information	
Recommended skills and knowledge	Unit 20709, <i>Demonstrate knowledge of perchloroethylene for drycleaning</i> ; and Unit 20645, <i>Describe the requirements of the HSNO Act 1996 relevant to approved handlers</i> ; or demonstrate equivalent knowledge and skills.

Explanatory notes

- Evidence must meet the following legislative and regulatory requirements: Consumer Information Standards (Care Labelling) Regulations 2000; Consumer Information Standards (Fibre Content Labelling) Regulations 2000; Hazardous Substances and New Organisms Act 1996; and Health and Safety in Employment Act 1992.
- Definitions
Enterprise – an organisation where training and/or assessment is taking place, and/or where the trainee is employed.
Enterprise procedures – actions which comply with the policies, systems, and directives in a particular enterprise. Enterprise procedures must comply with the requirements of the Health and Safety in Employment Act 1992, and subsequent amendments.

Outcomes and evidence requirements

Outcome 1

Describe the operation of a drycleaning machine.

Evidence requirements

1.1 Controls and operating systems of a drycleaning machine are identified and described.

Range cleaning, filtration, drying, distillation, solvent flow.

1.2 Drycleaning processes are described according to job requirements and enterprise procedures.

Outcome 2

Demonstrate knowledge of emergency response procedures for drycleaning operations according to enterprise procedures.

Evidence requirements

2.1 Emergency response management plan is described.

2.2 Evacuation procedure is described.

Range machine close down, evacuation.

2.3 Solvent containment procedures are demonstrated.

Range drains, water-ways, soil;
evidence is required for at least two different solvents.

Planned review date	31 December 2019
----------------------------	------------------

Status information and last date for assessment for superseded versions

Process	Version	Date	Last Date for Assessment
Registration	1	21 June 2004	31 December 2015
Rollover	2	21 September 2007	31 December 2015
Review	3	18 June 2014	N/A

Consent and Moderation Requirements (CMR) reference	0030
--	------

This CMR can be accessed at <http://www.nzqa.govt.nz/framework/search/index.do>.

Please note

Providers must be granted consent to assess against standards (accredited) by NZQA, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be granted consent to assess against standards by NZQA before they can register credits from assessment against unit standards.

Providers and Industry Training Organisations, which have been granted consent and which are assessing against unit standards must engage with the moderation system that applies to those standards.

Requirements for consent to assess and an outline of the moderation system that applies to this standard are outlined in the Consent and Moderation Requirements (CMR). The CMR also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.
