## Guidance Information

### 1 Definitions

A *construction site operation* may form part of an organisation's activities, or it may constitute a complete organisation.

*Contract documentation* refers to plans and drawings, contract drawings, work or product specifications relating to the specified construction site operation.

*Medium buildings* are light to medium weight commercial or industrial buildings up to three levels above ground which utilise commercial or industrial materials, construction techniques, and services.

*Specifications* refer to documented instructions (oral, written, graphic) and may include any of the following: manufacturer's specifications, recommendations, or technical data sheets; material specifications; specifications from a specialist source such as an architect, designer, engineer or a supervisor; site or work-specific requirements.

*Work site practice* refers to the documented procedures specific to a work site which set out the standard and required practices of that work site.

2 Practical elements of this unit standard may be assessed on the basis of evidence of demonstrated performance in the workplace or in simulated work situations designed to draw upon similar performance to that required in a workplace.

3 Legislation relevant to this unit standard includes:  
 Health and Safety at Work Act 2015 and Health and Safety in Employment Regulations 1995;  
 Building Act 2004, Building (Forms) Regulations 2004;  
 Resource Management Act 1991;  
 New Zealand Building Code;  
 available from <https://www.legislation.govt.nz/>  
 and all subsequent amendments and replacements.

---

## Outcomes and performance criteria

### Outcome 1

Explain the installation procedures for proprietary ceiling systems in medium buildings.

Range suspended and frame ceiling systems, sound and fire rated ceilings.

#### Performance criteria

- 1.1 Features of proprietary ceiling systems are described in terms of their function.
- 1.2 Installation of proprietary ceiling systems is described in accordance with contract documentation and manufacturers' specifications.

### Outcome 2

Explain the installation procedures for proprietary wall systems in medium buildings.

Range sound and fire rated walls.

#### Performance criteria

- 2.1 Features of proprietary wall systems are described in terms of their functions.
- 2.2 Installation of proprietary wall systems is described in accordance with contract documentation and manufacturer's specifications.

### Outcome 3

Supervise the installation of proprietary ceiling and wall systems for a medium building.

#### Performance criteria

- 3.1 Work activities are planned for the installation of proprietary ceiling and wall systems.
- 3.2 Preparation of the construction site operation for the installation of proprietary ceiling and wall systems is supervised, as specified in contract documentation and manufacturers' specifications.
- 3.3 Work methods of site personnel are supervised in accordance with work site practice.  
  
Range contractors, sub-contractors, employees.
- 3.4 Installation methods are confirmed to be in accordance with contract documentation and manufacturers' specifications.

<b>Planned review date</b>	31 December 2027
