Standard setting body (SSB) Primary Industry Training Organisation

Accreditation and Moderation Action Plan (AMAP) reference 0123

This AMAP can be accessed at <http://www.nzqa.govt.nz/framework/search/index.do>.

Special notes

Definitions

Certification covers all procedures and activities associated with issuance of Official Assurance for consignments of animal material or animal product where Official Assurance is required. It includes eligibility documents, eligibility declarations and export certificates.

Company requirements refer to instructions to staff on policy and procedures that are communicated in an oral or written form. These requirements must include legislation requirements and company safety procedures, and may include but are not limited to industry codes of practice and standards.

Electronic certification is referred to as E-cert in this unit standard.

Legislative requirements in this unit standard refer to legislation, regulations and standards that include but are not limited to - the Animal Products Act 1999, Animal Products (Official Assurance Specifications) Notice, Official Assurances Programme (OAP), Technical Directives (TDs), Overseas Market Access Requirements (OMARs), General Requirements for Exporters (GREXs), New Zealand Food Safety Authority (NZFSA) E-cert Help Files, and subsequent updates and amendments.

Elements and performance criteria

Element 1

Explain certification requirements for export of animal material or animal products.

Performance criteria

- 1.1 The explanation includes an outline of the legislation as it applies to certification.
- 1.2 The explanation includes the ethical responsibilities of company personnel in relation to certification and the role of the Certification Coordinator in maintaining ethical standards.

Range includes but is not limited to – section 2 (Certification) of the Code of Professional Conduct for Veterinarians, Animal Products Act 1999, Statement of Policy, Ethical Basis of Certification, NZFSA's Conditions for Use of Web applications.

Element 2

Explain the responsibilities of the company Certification Coordinator.

Performance criteria

- 2.1 The explanation includes the procedures for managing Certification Operators in accordance with company requirements.

Range registration, login identifications, passwords, training, de-registration, performance.

- 2.2 The explanation includes the procedures used to provide the underpinning information to support certification in accordance with company requirements.

Range includes but is not limited to – market eligibility, inventory control, product tracking, document control and record keeping.

- 2.3 The explanation includes the procedures for implementing new or amended certification requirements in accordance with company requirements.

Element 3

Explain the procedures for ensuring that legislative requirements for certification are met.

Performance criteria

- 3.1 The explanation includes the procedures implemented by a company to confirm that certification requirements are met.
- Range includes but is not limited to – E-cert documentation review, records review, response to external verification, Business Continuity Plan (BCP) review and Certification Operator feedback.
- 3.2 The explanation includes the procedures for maintaining the link between processing and certification.
- 3.3 The explanation includes the external verification processes used for certification.

Please note

Providers must be accredited by NZQA, or an inter-institutional body with delegated authority for quality assurance, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be accredited by NZQA before they can register credits from assessment against unit standards.

Accredited providers and Industry Training Organisations assessing against unit standards must engage with the moderation system that applies to those standards.

Accreditation requirements and an outline of the moderation system that applies to this standard are outlined in the Accreditation and Moderation Action Plan (AMAP). The AMAP also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.
