### Guidance Information

- 1 Evidence presented for assessment against this unit standard must be consistent with safe working practices and be in accordance with relevant legislative and industry requirements.
- 2 Legislation relevant to this unit standard include:
  - Health and Safety at Work Act 2015;
  - Health and Safety in Employment Regulations 1995;
  - Resource Management Act 1991;
 and all subsequent amendments and replacements.
- 3 Definitions
 

*Industry requirements* refer to relevant policies, processes, methodologies, industry codes of practice, site specific health and safety plans, standard operating procedures, site safety plans, quality plans, work plans, traffic management plans, contract work programmes, job safety analysis, safe work method statements, job instructions, manufacturer's requirements, contract specifications, manuals, procedural documents, Waka Kotahi New Zealand Transport Agency specifications and guidelines.

*Notifiable work* refers to hazardous work as described in regulations, for which notice must be lodged with the government workplace safety authority 24 hours prior to commencement. Information on hazard controls for specific types of notifiable work may be obtained from Worksafe New Zealand at <http://www.worksafe.govt.nz>.

*Permit* refers to any permit that addresses the protection of health, safety, the environment, and/or assets at infrastructure worksites.

---

## Outcomes and performance criteria

### Outcome 1

Demonstrate knowledge of current health and safety regulations relating to notifiable works.

#### Performance criteria

- 1.1 Types of notifiable works are identified in accordance with current health and safety regulations.
- 1.2 Person responsible for making a notification is identified in accordance with current health and safety regulations.
- 1.3 Requirements for lodging a notifiable notice explained in accordance with current health and safety regulations.
- 1.4 Types of works for which people must have a certificate of competence are identified in accordance with current health and safety regulations.

### Outcome 2

Describe risk control measures for notifiable works typical of infrastructure worksites.

#### Performance criteria

- 2.1 Risk control measures are described.
  - Range at least three risk control measures relevant to notifiable works on own worksite.

### Outcome 3

Demonstrate knowledge of the types and purpose of work permits typical of infrastructure worksites.

#### Performance criteria

- 3.1 Types of work that require a permit are identified and described in terms of purpose, terms and conditions, and organisations that issue them.
  - Range two types of work relevant to own sector.
