Purpose	People credited with this unit standard are able to: identify order requirements, and make up orders, for materials used to manufacture prefabricated frames and trusses.
----------------	---

Classification	Construction Trades > Carpentry
-----------------------	---------------------------------

Available grade	Achieved
------------------------	----------

Guidance Information

- 1 Definitions
Shop drawings refers to the set of drawings associated with a building project to be made in a controlled environment, and can include plans, elevations, sections, details or any other drawings that give information about the project.
Workplace practice refers to the documented procedures specific to a workplace which set out the standard and required practices of that workplace.
- 2 Credit for this unit standard indicates compliance with industry practice. *Industry practice* refers to the ability to demonstrate knowledge and skills that reflect the productivity, uniformity, finish quality, and material economies currently accepted within industry.
- 3 Legislation and publications relevant to this unit standard include:
 Health and Safety in Employment Act 1992 and Health and Safety in Employment Regulations 1995;
 Building Act 2004;
 New Zealand Building Code.

Outcomes and performance criteria

Outcome 1

Identify order requirements for materials used in the manufacture of prefabricated frames and trusses.

Performance criteria

- 1.1 Order requirements are identified from interpretation of shop drawings, and order details are checked and verified in accordance with workplace practice.

Range components – type, grade, treatment, length, quantity, gauge, dimensions, condition;
hardware – type, size, quantity;
appearance, timeframe, any other items required by the shop drawings.

- 1.2 Order details are matched with availability of materials and action is taken in accordance with workplace practice.

Outcome 2

Make up orders for materials used to manufacture of prefabricated frames and trusses.

Performance criteria

- 2.1 Materials are obtained from stock in accordance with order requirements and workplace practice.

- 2.2 Orders are completed within agreed time-frames and in accordance with production sequence and workplace practice.

- 2.3 Documentation is completed in accordance with workplace practice.

This unit standard is expiring. Assessment against the standard must take place by the last date for assessment set out below.

Status information and last date for assessment for superseded versions
