### Guidance Information

- 1 Legislation relevant to this unit standard includes but is not limited to – Ozone Layer Protection Act 1996; Health and Safety at Work Act 2015, Health and Safety in Employment Regulations; Resource Management Act 1991 and local bylaws; Maritime Transport Act 1994, Maritime Rules and Marine Protection Rules, and advisory circulars issued under the Rules.
- 2 *Company requirements* refer to instructions to staff on policy and procedures that are communicated in an oral or written form. These requirements must include legislation requirements and company safety procedures, and may include but are not limited to, industry codes of practice and standards.

---

### Outcomes and performance criteria

#### Outcome 1

Explain the management of occupational safety and health aboard a commercial seafood vessel.

**Performance criteria**

- 1.1 The explanation outlines the legal liabilities and responsibilities of an Officer on a commercial seafood vessel arising from occupational safety and health legislation.
- 1.2 The explanation outlines indicators that would alert an Officer on a commercial seafood vessel to the potential for a serious accident.
- 1.3 The explanation outlines both the direct and indirect costs of an accident.
- 1.4 The explanation outlines the importance of the selection, supervision, and management of the personnel working aboard a commercial seafood vessel, in relation to prevention of accidents.
- 1.5 The explanation identifies how failures in the management of safety in the workplace contribute to accidents.

**Outcome 2**

Explain hazard identification and risk assessment procedures on a commercial seafood vessel.

**Performance criteria**

- 2.1 The explanation outlines hazard identification procedures used aboard a commercial seafood vessel, in accordance with legislative and company requirements.  
  
Range hazard identification procedures may include but are not limited to – task analysis, behaviour analysis, environment analysis, ‘what if’ analysis, fault-tree analysis, accident and incident investigations, documentation and reporting; evidence is required for a minimum of three procedures.
- 2.2 The explanation outlines risk assessment procedures in relation to identified hazards aboard a commercial seafood vessel.  
  
Range procedures include but are not limited to – an assessment of probability, level of risk, consequences; judgement against evidence of systematic application of experience.
- 2.3 The explanation outlines the documentation associated with hazard identification and risk assessment in accordance with company requirements  
  
Range documentation includes but is not limited to – hazard identification forms, risk assessment reports.

### Outcome 3

Explain health and safety risk management methods used aboard a commercial seafood vessel.

#### Performance criteria

- 3.1 The explanation outlines the risk management methods available in terms of the elimination, isolation, or minimisation of identified hazards.
- 3.2 The explanation outlines methods for monitoring and reviewing effectiveness of risk management control in accordance with legislative and company requirements.

### Outcome 4

Explain the investigation and reporting processes of an occupational safety and health incident aboard a commercial seafood vessel in accordance with legislative and company requirements.

#### Performance criteria

- 4.1 The explanation includes the obligation to report an accident or incident.
- 4.2 The explanation includes the process of gathering information concerning the incident from primary and secondary sources.
  - Range includes but is not limited to – securing the scene, preservation of evidence, witness statements, historical records.
- 4.3 The explanation includes the process of sorting data into chronological order.
- 4.4 The explanation includes the process of determining the root cause in relation to data gathered.
- 4.5 The explanation includes the formulation of corrective actions.
- 4.6 The explanation includes the process of determining control measures to prevent re-occurrence based upon the outcome of the investigation.
- 4.7 The explanation includes the process of documenting and circulating the incident investigation report.
- 4.8 The explanation includes the process of monitoring and reporting implemented corrective actions to determine effectiveness.
