-----------------------	-----------------------------------

Available grade	Achieved
------------------------	----------

Guidance Information

- Evidence presented for assessment against this unit standard must be consistent with safe working practices and be in accordance with applicable manufacturers specifications, service information, company requirements and legislative requirements. This includes the knowledge and use of suitable tools and equipment.
- Legislation, regulations and/or industry standards relevant to this unit standard include but are not limited to the current version of the Health and Safety at Work Act 2015; and any subsequent amendments and replacements.
- Definitions
Company requirements refer to instructions to staff on policy and procedures that are available in the workplace. These requirements may include – company policies and procedures, work instructions, product quality specifications and legislative requirements.
Service information may include – technical information for a vehicle, machine, or product detailing operation; installation and servicing procedures; manufacturer instructions; technical terms and descriptions; and detailed illustrations.

Outcomes and performance criteria

Outcome 1

Demonstrate knowledge of exterior motor vehicle body parts.

Range grilles, mouldings, wipers, mirrors, sill covers, spoilers, door handles, sensors.

Performance criteria

- 1.1 Parts are identified.
- 1.2 Purpose of each part is described.
- 1.3 Method of attachment for each part is identified.

Outcome 2

Demonstrate knowledge of interior motor vehicle parts.

Range seats, seat belts, trim panels, sealing rubbers, console panels, door locks, window mechanisms.

Performance criteria

- 2.1 Parts are identified.
- 2.2 Purpose of each part is described.
- 2.3 Method of attachment for each part is identified.

Outcome 3

Identify seatbelt pretensioners and SRS component precautions.

Performance criteria

- 3.1 Precautions to take when working around seatbelt pretensioners and SRS components are identified.

Replacement information	This unit standard and unit standard 21698 replaced unit standard 3861 and unit standard 3886.
