------------------------	----------

Guidance Information

- References relevant to this unit standard include but are not limited to:
Health and Safety at Work Act 2015;
The New Zealand Waste Strategy: Reducing Harm, Improving Efficiency 2010
Ministry for the Environment, available at <http://www.mfe.govt.nz>.
- Assessment against this unit standard is limited to aspects of a project relating to zero waste principles and practice. This may be evidenced by the candidate individually organising a project focussed on zero waste, or by demonstrating responsibility for the zero waste aspects of a team project.
- Definition
Project is a defined series of coordinated tasks with a defined outcome, start, and finish, such as a conference, festival, or weekend event.
Research is the systematic collection of information from primary and/or secondary sources calculated to produce knowledge and understanding. It may include any combination of the following:
Primary research – gathering information from a direct source through interview, experimentation, and observation;
secondary research – collation of information from existing printed or electronic resources.

Outcomes and performance criteria

Outcome 1

Facilitate the zero waste component of a community project.
