### Guidance Information

- 1 Performance criteria must be consistent with all relevant procedures, guidelines, and legislation (and their subsequent amendments) which include but are not limited to:
  - Workplace procedures
  - Equipment manufacturer's guidelines
  - Health and Safety at Work Act 2015
  - Resource Management Act 1991
  - Hazardous Substances and New Organisms Act 1996.
- 2 Definition  
*Workplace procedures* – the procedures and standards set by the client or employing organisation for cricket block renovation.
- 3 Assessment  
 one of – high school first XI, club, first class, international.

---

### Outcomes and performance criteria

#### Outcome 1

Determine cricket pitch surface performance characteristics, analyse current condition of the cricket block, and prepare a work plan for cricket block renovation.

**Performance criteria**

- 1.1 Determine surface performance characteristics required of the cricket pitch surface in relation to the anticipated grades of cricket and duration of games.
- Range surface performance characteristics may include but are not limited to – surface hardness, bounce, shine, density, moisture content, compaction, levelness, turf cover.
- 1.2 Evaluate cricket block type and source of clay that was used for construction and/or renovation.
- 1.3 Evaluate cricket block surface condition and playing characteristics.
- Range turf cover, thatch, layering, smoothness, levelness, foot marks, pace, bounce, uniformity, post-match evaluations.
- 1.4 Prepare a work plan for cricket block renovation to identify tasks to be completed, resources required, and time–frames to achieve desired surface performance consistent with anticipated cricket grade and game duration.
- Range renovation – one of – autumn, spring;  
resources – machinery, equipment, labour;  
tasks may include but are not limited to – grooving, de-thatching, decompaction, soiling, levelling, sowing, fertilising, irrigation, weed control, pest and disease control.

**Outcome 2**

Renovate a cricket block.

**Performance criteria**

- 2.1 Source resources for cricket block renovation in accordance with the work plan and budget constraints.
- 2.2 Carry out cricket block renovation in accordance with the work plan.
- Range may include but is not limited to – grooving, de-thatching, decompaction, soiling, levelling, sowing, fertilising, irrigation, weed control, pest and disease control.
- 2.3 Evaluate results of renovation against the work plan to determine whether objectives are achieved.
