### Explanatory notes

- 1 Definition  
*Company requirements* refer to instructions to staff on policy and procedures which are communicated in an oral or in a written form. These requirements must include legislative requirements and company safety procedures and may include but are not limited to – manufacturer’s procedures, industry codes of practice and standards.
  
- 2 All work practices must meet documented company safety requirements. The documented company safety requirements must meet the obligations of the Health and Safety in Employment Act 1992, and subsequent amendments.

---

### Outcomes and evidence requirements

#### Outcome 1

Describe the preparation of, and prepare for the transport of milt and/or unfertilised fish eggs.

#### Evidence requirements

- 1.1 The description includes the preparation of the containers, milt and/or unfertilised fish eggs and packaging for transport in accordance with company requirements.

Range may include but is not limited to – cleaning and disinfection, quantity, materials and equipment, documentation, communication, environmental requirements, hygiene, handling, quality checks.

- 1.2 The milt and/or unfertilised eggs are prepared and packed for transport in accordance with company requirements.

Range may include but is not limited to – cleaning and disinfection, quantity, materials and equipment, documentation, communication, environmental requirements, hygiene, handling, quality checks.

## Outcome 2

Describe the preparation of, and prepare for the transport of eyed fish eggs.

### Evidence requirements

- 2.1 The description includes the preparation of the containers, eyed fish eggs and packaging for transport in accordance with company requirements.

Range may include but is not limited to – timing, shocking, picking, counting, cleaning and disinfection, quantity, materials and equipment, documentation, communication, environmental requirements, hygiene, handling, quality checks.

- 2.2 The eyed fish eggs are prepared and packed for transport in accordance with company requirements.

Range may include but is not limited to – timing, shocking, picking, counting, cleaning and disinfection, quantity, materials and equipment, documentation, communication, environmental requirements, hygiene, handling, quality checks.

## Outcome 3

Describe the procedures for receiving eyed fish eggs and receive eyed fish eggs.

### Evidence requirements

- 3.1 The description includes the preparation of the incubators to receive eyed fish eggs in accordance with company requirements.

Range may include but is not limited to – water quality, water flow, temperature, light, cleaning and disinfection, hygiene, stocking density.

- 3.2 The description includes the procedures for receiving eyed fish eggs in accordance with company requirements.

Range may include but is not limited to – quality of eggs, temperature, documentation, preparation of incubator.

3.3 The eyed fish eggs are received in accordance with company requirements.

Range may include but is not limited to – quality of eggs, temperature, documentation.

#### Please note

Providers must be granted consent to assess against standards (accredited) by NZQA, or an inter-institutional body with delegated authority for quality assurance, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be granted consent to assess against standards by NZQA before they can register credits from assessment against unit standards.

Providers and Industry Training Organisations, which have been granted consent and which are assessing against unit standards must engage with the moderation system that applies to those standards.

Consent requirements and an outline of the moderation system that applies to this standard are outlined in the Accreditation and Moderation Action Plan (AMAP). The AMAP also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.

#### Comments on this unit standard

Please contact Primary Industry Training Organisation [standards@primaryito.ac.nz](mailto:standards@primaryito.ac.nz) if you wish to suggest changes to the content of this unit standard.
