

Title	Describe and carry out the crowding of farmed fin fish		
Level	3	Credits	5

Purpose	People credited with this unit standard are able to: describe the principles of crowding farmed fin fish; and describe the process of and carry out the crowding of farmed fin fish.
----------------	--

Classification	Seafood > Aquaculture
-----------------------	-----------------------

Available grade	Achieved
------------------------	----------

Guidance Information

- Legislation relevant to this unit standard includes but is not limited to:
 - Animal Products Act 1999;
 - Health and Safety at Work Act 2015;
 - and any subsequent amendments.
- Definitions

Company requirements refer to instructions to staff on policy and procedures which are communicated in an oral or in a written form. These requirements may include but are not limited to – manufacturer's instructions, company safety requirements, throughput, and industry codes of practice and standards. Company requirements must include legislative requirements.

Crowding refers to increasing density of the population of farmed fin fish for purposes such as harvesting, grading, and treatment.
- All evidence presented in this unit standard must be in accordance with company requirements.

Outcomes and performance criteria

Outcome 1

Describe the principles of crowding farmed fin fish.

Performance criteria

- Describe the principles of crowding farmed fin fish to minimise stress and maximise quality.

Range quantity, density, time efficiency.

- 1.2 Describe the indicators of good crowding techniques.
Range evidence of two indicators is required.
- 1.3 Describe the indicators of poor crowding techniques.
Range evidence of two indicators is required.
- 1.4 Describe the consequences of poor crowding of farmed fin fish.
Range evidence of two consequences is required.

Outcome 2

Describe the process of and carry out the crowding of farmed fin fish.

Performance criteria

- 2.1 Describe the process of crowding farmed fin fish.
- 2.2 Carry out the crowding of farmed fin fish.

Planned review date	31 December 2028
----------------------------	------------------

Status information and last date for assessment for superseded versions

Process	Version	Date	Last Date for Assessment
Registration	1	25 February 2008	31 December 2024
Rollover	2	18 February 2011	31 December 2024
Review	3	28 October 2021	N/A
Rollover	4	29 February 2024	N/A

Consent and Moderation Requirements (CMR) reference	0123
