### Guidance Information

- 1 Legislation and references  
Performance of the outcomes of this unit standard must comply with the following:  
Health and Safety at Work Act 2015.
- 2 Any new, amended or replacement Acts, regulations, standards, codes of practice, guidelines, or authority requirements or conditions affecting this unit standard will take precedence for assessment purposes, pending review of this unit standard.
- 3 Definitions  
*Company requirements* refer to instructions to staff on policy and procedures that are available in the workplace. These requirements may include – company policies and procedures, work instructions, product quality specifications and legislative requirements.  
*Service information* may include – technical information for a vehicle, machine, or product detailing operation; installation and servicing procedures; manufacturer instructions; technical terms and descriptions; and detailed illustrations.
- 4 Assessment  
Evidence presented for assessment against this unit standard must be consistent with safe working practices and be in accordance with applicable manufacturers specifications, service information, company requirements and legislative requirements.  
  
Evidence of three dashboard panels is required.
- 5 For this unit standard, it is essential that the practical assessment evidence is obtained in the workplace under normal workplace conditions.
- 6 Recommended skills and knowledge  
It is recommended that people first hold credit for Unit 23980, *Demonstrate knowledge of removing and replacing vehicle dashboard panels and adjacent fittings*; and Unit 22799, *Demonstrate safety precautions on vehicles fitted with air bags and seatbelt pre-tensioners*; or demonstrate equivalent knowledge and skills.

---

## Outcomes and performance criteria

### Outcome 1

Remove a vehicle dashboard panel.

#### Performance criteria

- 1.1 Parts that interfere with dashboard panel removal are removed and connections marked for reattachment.

Range may include – wiring connections and cables, heating and ventilation tubes.

- 1.2 Dashboard panel is removed from the vehicle.

- 1.3 Damage on dashboard panel is identified and the viability of repairing or replacing the panel is determined.

- 1.4 Components are removed from the dashboard panel to enable it to be repaired or replaced.

Range may include – entertainment system, glove box, warning lights, vents, instruments, wiring, cables, passenger air bag.

### Outcome 2

Replace a vehicle dashboard panel.

#### Performance criteria

- 2.1 Components that make up the dashboard panel are assembled and fitted.

- 2.2 Dashboard panel is replaced, fitted and secured.

- 2.3 Parts and fittings on the dashboard panel are checked for operation.

Range may include – warning lights; dials; entertainment system; heating, ventilation, and air conditioning; tachometer; speedometer; clock; security system; radar system; telephone; air bag operation check; brake operation check.
