Guidance Information

- 1 Scope of practice**

Working under supervision means the ability to work to construction workplace standards under the supervision of a commercially competent practitioner whose role is to ensure the completed construction meets industry and regulatory requirements. This standard does not recognise commercial competence.
- 2 Assessment**

This unit standard must be assessed under the supervision of a commercially competent practitioner in construction workplace conditions that reflect:

 - current health, safety, industry, and workplace requirements; and
 - industry requirements for commercially acceptable timeframes.

Evidence generated for assessment against this standard must be verified by a person who has current expertise in the building and construction trades and has had the opportunity to regularly observe the candidate in the workplace.
- 3 Range**

Evidence generated for assessment against this standard must reflect workplace and industry requirements specified in:

 - documented worksite specifications, procedures, and practices;
 - manufacturer recommendations, specifications, and technical data sheets;
 - applicable specifications from other sources such as an architect, designer, engineer, or supervisor;
 - applicable material safety data sheets;
 - NZS 3604:2011 *Timber Framed Buildings*, or a design that complies with the Building Act 2004 when construction requirements are outside the scope of NZS 3604;
 - the New Zealand Building Code.

Evidence generated for assessment against this standard must reflect the requirements of:

- Building Act 2004
- Health and Safety at Work Act 2015
- Resource Management Act 1991
- Building Regulations 1992
- Building (Forms) Regulations 2004
- Health and Safety in Employment Regulations 1995.

Outcomes and performance criteria

Outcome 1

Construct timber floor framing under supervision.

Performance criteria

- 1.1 Set out, cut, and fix floor joists required for a construction job.
- 1.2 Trim floor joists for floor openings.

Outcome 2

Fix timber flooring and decking under supervision.

Performance criteria

- 2.1 Lay and fix timber flooring for a construction job.
- 2.2 Cut, lay, and fix decking for a construction job.

Outcome 3

Clean and store tools, plant, and equipment used to construct and fix timber flooring and decking.

Range plant includes – any machinery, vehicle, vessel, aircraft, equipment (including personal protective equipment), appliance, container, implement, or tool; any component of any of those things; anything fitted or connected to any of those things;
personal protective equipment includes – anything used or worn by a person (including clothing) to minimise risks to the person's health and safety;
air-supplied respiratory equipment.

Performance criteria

- 3.1 Clean workplace, tools, and plant used to construct and fix timber flooring and decking.
- 3.2 Store tools and plant used to construct timber flooring and decking.

Replacement information	This unit standard replaced unit standard 13048.
