### Guidance Information

1 **Scope of practice**  
 Working *under supervision* means the ability to work to construction workplace standards under the supervision of a commercially competent practitioner whose role is to ensure the completed construction meets industry and regulatory requirements. This standard does not recognise commercial competence.

2 **Assessment**  
 This unit standard must be assessed under the supervision of a commercially competent practitioner in construction workplace conditions that reflect:

- current health, safety, industry, and workplace requirements; and
- industry requirements for commercially acceptable timeframes.

Evidence generated for assessment against this standard must be verified by a person who has current expertise in the building and construction trades and has had the opportunity to regularly observe the candidate in the workplace.

3 **Range**  
 Evidence generated for assessment against this standard must meet workplace and industry requirements specified in:

- documented worksite specifications, procedures, and practices;
- manufacturer recommendations, specifications, and technical data sheets;
- applicable specifications from other sources such as an architect, designer, engineer, or supervisor;
- applicable material safety data sheets;
- NZS 3604:2011 *Timber Framed Buildings*;
- the New Zealand Building Code;
- consents, working drawings, plans and specifications, reports, producer statements, relevant industry standards, other documentation critical to the construction process.

Evidence generated for assessment against this standard must reflect the requirements of:

- Building Act 2004;
- Health and Safety at Work Act 2015;
- Resource Management Act 1991;
- Building Regulations 1992;
- Building (Forms) Regulations 2004;
- Health and Safety in Employment Regulations 1995.

## Outcomes and performance criteria

### Outcome 1

Install wall and ceiling insulation under supervision.

Range walls, ceilings.

#### Performance criteria

1.1 Cut thermal insulation to size.

1.2 Fit thermal insulation.

### Outcome 2

Clean and store tools, plant, and equipment used to install wall and ceiling insulation.

Range plant includes – any machinery, vehicle, vessel, aircraft, equipment (including personal protective equipment), appliance, container, implement, or tool; any component of any of those things; anything fitted or connected to any of those things;  
 personal protective equipment includes – anything used or worn by a person (including clothing) to minimise risks to the person's health and safety;  
 air-supplied respiratory equipment.

#### Performance criteria

2.1 Clean workplace, tools, and plant used to install insulation.

2.2 Store tools and plant used to install insulation.

<b>Replacement information</b>	This unit standard replaced unit standard 18729.
