------------------------	----------

Guidance Information

- 1 Definitions
Quality assurance means clear and consistent documented standards that are adopted and implemented throughout an organisation.
Workplace means the actual workplace in which the candidate is either employed or on work experience.
- 2 Reference material relevant to this unit standard includes:
The Guide to Concrete Construction, (Cement and Concrete Association of New Zealand (CCANZ), 1999), available from
<https://secure1.iconz.co.nz/cca/shop/index.asp>.

Outcomes and performance criteria

Outcome 1

Demonstrate knowledge of quality assurance requirements in concrete industry work.

Performance criteria

- 1.1 Concrete industry quality assurance requirements are identified and their relevance to end product is described.
- 1.2 Workplace quality assurance procedures and requirements are identified, and described in terms of their impact on own work and that of others in the workplace.

Range material supply and plant certificate, standard operating procedures, own job description, production specifications, concrete mix documentation, test results.

- 1.3 Quality assurance personnel in own workplace are identified, and are described in terms of their quality assurance work role and responsibilities.
- 1.4 Sources of advice on quality assurance requirements are identified, and are described in terms of their relationship to own work.

This unit standard is expiring. Assessment against the standard must take place by the last date for assessment set out below.
