Guidance Information

- Legislation relevant for this unit standard:
 - Building Act 2004;
 - Building Regulations 1992;
 - Health and Safety at Work Act 2015; available from www.legislation.govt.nz.
- Tasks to be performed as evidence for this unit standard may include:
 - install – gate, handrail, letterbox;
 - remove and replace – standard lock and barrel, window catch, doorknob and stop, clothesline, fence post;
 - repairs – plaster board using patches and basic repair techniques, ease timber doors and windows, minor concrete repairs;

evidence of six tasks, two from each of install, remove and replace, and repairs is required.
- Assessment for this unit standard can be holistic where the knowledge and skills are assessed in conjunction with the outcomes in other unit standards from the *Building, Construction, and Allied Trades Skills* or related domains at Level 2.
- Definitions

Site safety plan refers to the documented procedures specific to a workplace including personal protective equipment (PPE), toolbox meetings, hazard signage, and the standard and required practices of that workplace.

Specifications refer to documented instructions (oral, written, graphic) and may include the following: job specifications from a supervisor or project specific drawings or requirements.

Workplace practice refers to the documented procedures specific to a work site which set out the standard and required practices of that workplace. For this unit standard, *workplace* includes residential dwellings.

Outcomes and performance criteria

Outcome 1

Prepare to perform basic carpentry maintenance for a residential dwelling.

Performance criteria

- 1.1 The location of the work to be performed is identified from job specifications.
- 1.2 The work to be performed is described in terms of process and techniques to be used.
- 1.3 Quantities of materials are calculated from job specifications.
- 1.4 Tools, equipment, and materials are identified and selected to match the job requirements.

Outcome 2

Perform basic carpentry maintenance for a residential dwelling under supervision.

Performance criteria

- 2.1 The specified work is carried out and finished in accordance with job specifications.
- 2.2 Tools, equipment, and PPE are used in accordance with the site safety plan and workplace practice.

Outcome 3

Complete work operations under supervision.

Performance criteria

- 3.1 Tools, equipment, and PPE are maintained and securely stored to prevent tampering and theft in accordance with the site safety plan and workplace practice.
- 3.2 Site is cleared of all surplus components, equipment, tools, and debris in accordance with the site safety plan and workplace practice.
