

Title	Fabricate yacht rigging		
Level	4	Credits	10

Purpose	People credited with this unit standard are able to: confirm job specification for rigging fabrication; prepare for fabrication of rigging; and fabricate rigging.
----------------	--

Classification	Boating Industries > Boatbuilding
-----------------------	-----------------------------------

Available grade	Achieved
------------------------	----------

Guidance Information

- 1 Legislation, regulations, references and/or industry standards relevant to this unit standard include but are not limited to the:

- [Health and Safety at Work Act 2015](#);
- [Resource Management Act 1991](#).

Any new, amended or replacement Acts, regulations, rules, standards, codes of practice, guidelines, or authority requirements or conditions affecting this unit standard will take precedence for assessment purposes, pending review of this unit standard.

- 2 Definitions

Fabrication refers to cutting and terminating wire or aramid rigging types. May include talurit, swage, splice or a proprietary system.

Job specifications refer to the standard requirements of the job being undertaken.

Workplace policies and procedures refer to the documented procedures and policies providing guidelines for the tasks and activities carried out in the workplace. This typically includes relevant health and safety policies to manage hazards and/or risks in the workplace.

- 3 Assessment information

Evidence presented for assessment against this unit standard must be in accordance with workplace policies and procedures, job specifications and legislative requirements.

This unit standard may apply to wire, rod and aramids. Evidence is required for running and standing rigging.

- 4 This unit standard does not cover rope rigging, which is addressed in Unit 33486, *Manufacture and install rope work components in the marine environment*.

Outcomes and performance criteria

Outcome 1

Confirm job specification for rigging fabrication.

Performance criteria

- 1.1 Rigging type is confirmed and selected.
- 1.2 Rigging dimensions are confirmed.
- 1.3 Termination types are confirmed.

Outcome 2

Prepare for fabrication of rigging.

Performance criteria

- 2.1 Fabrication equipment is confirmed as being in working order.
- 2.2 Safety equipment is complete, in working order and matches the requirements of the task.
- 2.3 Pre-fabrication preparation of rigging is completed.

Outcome 3

Fabricate rigging.

Performance criteria

- 3.1 Fabrication of rigging is undertaken.
- 3.2 Safety equipment is used during the fabrication of rigging.

Replacement information	This unit standard, unit standard 25119, unit standard 25121, unit standard 25122, and unit standard 25123 replaced unit standard 9951 and unit standard 9952.
Planned review date	31 December 2030

Status information and last date for assessment for superseded versions

Process	Version	Date	Last Date for Assessment
Registration	1	21 November 2008	31 December 2027
Rollover and Revision	2	25 July 2019	31 December 2027
Review	3	24 July 2025	N/A
