----------------	--

<b>Classification</b>	Aviation > Airport Operations
-----------------------	-------------------------------

<b>Available grade</b>	Achieved
------------------------	----------

### Guidance Information

#### 1 Definitions

*Aerodrome* means any defined area of land or water intended or designed to be used either wholly or partly for the landing, departure, and surface movement of aircraft; and includes any building, installations, and equipment on or adjacent to any such area used in connection with the aerodrome or its administration.

*Pavement* in the context of an aerodrome refers to a rigid, durable, and flexible surface designed to support a load placed upon it, and will normally consist of concrete, asphalt or a composite material.

The term *airport* refers to aerodrome as per Civil Aviation Rules.

- #### 2 Reference to *enterprise procedures* means that all activities must comply with the requirements contained in the current airport exposition, current airport company manuals and procedures, and any relevant legislative and/or regulatory requirements, which may include but are not limited to: Civil Aviation Act 1990, relevant Civil Aviation Rules, New Zealand Defence Force (NZDF) Policy.

### Outcomes and performance criteria

#### Outcome 1

Prepare for aerodrome pavement testing operations.

#### Performance criteria

- 1.1 Test type is determined in accordance with enterprise procedures.
- 1.2 Contractor is approved in accordance with enterprise procedures.
- 1.3 Appropriateness of equipment is checked in accordance with enterprise procedures.

## Outcome 2

Monitor conduct of aerodrome pavement testing operations.

### Performance criteria

- 2.1 Calibration of testing equipment is checked in accordance with enterprise procedures.
- 2.2 Operations are monitored in accordance with enterprising procedures.

## Outcome 3

Record and process aerodrome pavement testing information.

### Performance criteria

- 3.1 Aerodrome pavement testing information is recorded and processed in accordance with enterprise procedures.

<b>Replacement information</b>	This unit standard and unit standard 25203 were replaced by skill standard 41112.
