Explanatory notes

- 1 References
Homes without barriers: A guide to accessible houses (Wellington: BRANZ, 2001), available at <http://www.branz.co.nz/>.
AS/NZS 4386.1:1996 Domestic kitchen assemblies – Kitchen units;
NZS 5261:2003 Gas Installation; available at <http://www.standards.co.nz>.
- 2 Legislation that applies to this unit standard includes – Health and Safety in Employment Act 1992.
- 3 Definition
Design brief – refers to the design parameters agreed between the kitchen designer and the client.
- 4 A concept design for a kitchen that has already been developed will be given to the candidate.

Outcomes and evidence requirements

Outcome 1

Demonstrate knowledge of space planning for use in a kitchen design.

Evidence requirements

- 1.1 The food flow sequence is identified and described in terms of the supplied concept design.

1.2 The work triangle(s) is identified and described in terms of the supplied concept design.

1.3 Main appliances, landing spaces and storage requirements are identified and described for the food storage and preparation centre, the sink and clean up centre, and the cooking and serving centre.

Outcome 2

Demonstrate knowledge of types of appliances for use in a kitchen design.

Evidence requirements

2.1 Types of kitchen appliances are identified and described in terms of their use for the supplied concept design.

Range kitchen appliances include but are not limited to – cooktops, ovens, dishwasher, microwaves, refrigerators/freezers, extraction system.

2.2 Legislative requirements associated with types of kitchen appliances are identified and described in terms of the application to the supplied concept design.

Range legislative requirements include but are not limited to – NZS 5261:2003.

Outcome 3

Interpret a kitchen design brief.

Evidence requirements

3.1 The kitchen design brief requirements are identified and sorted by importance.

3.2 Any additional information required by the design brief is sourced in accordance with industry requirements.

3.3 Kitchen appliance requirements for incorporation in the supplied concept design are identified.

3.4 Space planning requirements for incorporation in the supplied concept design are identified.

3.5 Ergonomic considerations for incorporation in the supplied concept design are identified.

Consent and Moderation Requirements (CMR) reference

0073

This CMR can be accessed at <http://www.nzqa.govt.nz/framework/search/index.do>.

Please note

Providers must be granted consent to assess against standards (accredited) by NZQA, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be granted consent to assess against standards by NZQA before they can register credits from assessment against unit standards.

Providers and Industry Training Organisations, which have been granted consent and which are assessing against unit standards must engage with the moderation system that applies to those standards.

Requirements for consent to assess and an outline of the moderation system that applies to this standard are outlined in the Consent and Moderation Requirements (CMRs). The CMR also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.

Comments on this unit standard
