

Title	Undertake sectional felling in arboriculture tree work		
Level	4	Credits	10

Purpose	People credited with this unit standard are able to: select equipment and techniques for sectional felling and identify hazards; use climbing equipment to ascend and descend trees with a clear trunk or stem of at least 10 meters; use sectional felling techniques that do not require the use of rigging equipment; use sectional felling techniques that require the use of basic rigging equipment; leave the site clean and tidy; and describe and carry out a pole rescue above 10 metres in an arboriculture situation.

- 2 Definitions

Pole rescue – a specific aerial rescue carried out by an arborist, on a tree that has had its limbs removed.

Workplace procedures – the policies and procedures on safety and operation set down by the employer or organisation. Procedures should reflect industry best practice, the GPG, equipment manufacturers' requirements, and current legislation.

- 3 Candidates must hold a current first aid certificate before undertaking sectional tree felling.
- 4 It is recommended that this unit standard is completed prior to assessment – Unit 2775, *Prune semi mature and mature amenity trees in arboriculture situations*; or demonstrate equivalent knowledge and skills.
- 5 For the purposes of assessment:
 - evidence must be presented in accordance with workplace procedures.

Outcomes and performance criteria

Outcome 1

Select equipment and techniques for sectional felling and identify hazards.

Performance criteria

- 1.1 Identify and select suitable equipment and techniques required to complete sectional felling work.

Range may include but is not limited to – lowering lines, frictional devices, false crotches, whoopie slings, rigging blocks; evidence of at least three is required.

- 1.2 Identify and manage hazards involved in the work and the site.

Outcome 2

Use climbing equipment to ascend and descend trees with a clear trunk or stem of at least 10 meters.

Range climbing equipment must include but is not limited to – climbing spikes and lanyard, harness, climbing line.

Performance criteria

- 2.1 Assess tree to determine suitability for climbing with spikes and identify possible hazards.
- 2.2 Select, maintain and use climbing equipment.
- 2.3 Use climbing equipment to ascend and descend trees.

Outcome 3

Use sectional felling techniques that do not require the use of rigging equipment.

Performance criteria

- 3.1 Select strategies and procedures for the work in accordance with the contract, and site requirements.
- Range may include but is not limited to – holding cuts, side scarfing, felling cuts, felling adjacent limbs, felling sections of limb climber is on;
evidence of at least five is required.
- 3.2 Safely remove sections of the tree using felling cuts.
- Range may include but is not limited to – holding cuts, blocking (or chogging) side scarfing, felling cuts, felling adjacent limbs, felling sections of limb climber is on;
evidence of at least five is required.

Outcome 4

Use sectional felling techniques that require the use of basic rigging equipment.

Performance criteria

- 4.1 Select strategies and procedures for the work in accordance with the contract requirements.
- Range evidence of at least seven is required.
- 4.2 Safely remove sections of the tree using basic rigging equipment and rope tying techniques.
- Range evidence of at least five is required.

Outcome 5

Leave site clean and tidy.

Performance criteria

- 5.1 Remove and dispose of felled material from the site.
- 5.2 Select and use methods to remedy damage to ground surfaces during felling.

Outcome 6

Describe and carry out a pole rescue above 10 metres in an arboriculture situation.

Range pole rescue may be simulated.

Performance criteria

- 6.1 Describe strategies and procedures for carrying out a pole rescue.
- Range may include but is not limited to – victim is concussed, unconscious, bleeding, has a suspected back injury; evidence of at least three is required.
- 6.2 Carry out a pole rescue using the victim’s climbing equipment, and additional climbing equipment, if required.

Replacement information	This unit standard replaced unit standard 2822.
