Guidance Information

1 Definitions

Enterprise procedures refer to the expected performance required by the enterprise in which credit for this unit standard is being sought. Such performance may be specified in enterprise procedures as indicated in manuals, guidelines, checklists, information bulletins, and Civil Aviation Authority of New Zealand (CAA) documentation.

Security investigation refers to a planned and directed process used to establish facts relevant to security and safety of passengers and crew, and must be carried out in accordance with enterprise procedures.

2 All activities assessed under this unit standard are conducted within the law.

3 Range

evidence of two documented security investigations is required.

Outcomes and performance criteria

Outcome 1

Demonstrate knowledge of procedures for responding to security risks on board an aircraft.

Range may include but is not limited to – passenger behaviour, unaccompanied items, accompanied items, intoxicated persons.

Performance criteria

1.1 Assessment of potential security risk is conducted in accordance with enterprise procedures.

- 1.2 Investigation of the potential security risk is conducted with minimal disruption to passengers and in accordance with enterprise procedures.
- 1.3 Information and evidence of the investigation are communicated to relevant passengers and crew in accordance with enterprise procedures.

Outcome 2

Document and present the results of a security incident.

Performance criteria

- 2.1 Documentation and presentation of a security incident are carried out in accordance with enterprise procedures.
