Guidance Information

1 Legislation relevant to this unit standard includes the Health and Safety at Work Act 2015; available from www.legislation.govt.nz, and any subsequent amendments and replacements.

2 **Assessment**

Evidence for this unit standard must reflect commercial competence; the ability to demonstrate knowledge and skills in the context of the currently accepted requirements of a business operating in a commercial environment.

Evidence must also reflect commercial standards; the verbal and written information covering company policy, standard operating procedures and processes and job-specific instructions.

This unit standard must be assessed under the supervision of a commercially competent practitioner in workplace conditions that reflect:

- commercial standards, current health, safety, industry, and workplace requirements; and
- industry requirements for commercially acceptable timeframes.

3 **Definitions**

Joinery work refers to the work, job, or project relevant to joinery, cabinetry, doors and windows, stairs, bench tops, shop fitting, and specialty surfaces.

Workplace requirements refer to the documented procedures specific to a workplace which set out the standard and the required practices of that workplace. This may include job specifications, procedures, practices, manufacturer recommendations, technical data sheets and material safety data sheets.

Outcomes and performance criteria

Outcome 1

Use adhesives for joinery work.

Range adhesives include – single pack, two pack, solvent-based.

Performance criteria

1.1 Adhesives compatible with job specifications are used.

Range location, type, compatibility with materials, recommended use, surface preparation, environmental conditions.

1.2 Hazards are identified and controls are applied.

Range controls include – ventilation, Personal Protective Equipment (PPE), and/or barrier cream, respirators or masks, goggles, washing;
evidence of four controls is required.

1.3 Adhesives are applied in accordance with job specifications.

Outcome 2

Use sealants for joinery work.

Performance criteria

2.1 Sealants compatible with job specifications are used.

Range location, type, compatibility with materials, recommended use, surface preparation, environmental conditions.

2.2 Hazards are identified, and controls are applied.

Range controls include but are not limited to – ventilation, gloves and/or barrier cream, respirators or masks, goggles, washing;
evidence of four controls is required.

2.3 Sealant used is applied in accordance with job specifications.

Outcome 3

Clean and store tools, plant, and equipment used to apply sealants and adhesives.

Performance criteria

- 3.1 Tools, plant and equipment used to apply sealants and adhesives are cleaned and stored.
- 3.2 Work area is cleared and cleaned.
