## 2 Definitions

*Relevant instructions* – oral, written or electronically transmitted instructions issued to govern the performance of security tasks, duties, and responsibilities. These may be in the form of policies, procedures, manuals, directives, or legal and compliance requirements. They may relate to a particular assignment, organisation, site or operation of equipment. *Risk* – the chance of something happening that will materially impact on objectives, measured in terms of consequences and likelihood. *Threat* – a source of harm that is deliberate or has the potential or intent to do harm. *Vulnerabilities* – the degree of susceptibility and resilience to hazards.

- 3 Terminology related to risk assessment is defined in AS/NZS ISO 31000:2009 *Risk Management - Principles and guidelines*.

---

## Outcomes and performance criteria

### Outcome 1

Demonstrate knowledge of security risks and the security risk management process.

#### Performance criteria

- 1.1 Explain security risks in terms of the security industry and the relationships between risks, threats and vulnerabilities.
- Range evidence of a minimum of three risks is required.
- 1.2 Summarise the steps of the risk management process in AS/NZS ISO 31000:2009 *Risk Management - Principles and guidelines* and explain the cycle in terms of its application in a security workplace.

### Outcome 2

Identify and describe security threats, vulnerabilities and risks in a workplace.

#### Performance criteria

- 2.1 Identify and describe security threats in relation to a workplace and in accordance with relevant instructions.
- Range threats may include – type, source, target, intent, capability; evidence of a minimum of three threats is required.
- 2.2 Describe security vulnerabilities in relation to the security threats identified in performance criterion 2.1.
- 2.3 Identify and describe security risks in relation to a workplace and in accordance with relevant instructions.

**Outcome 3**

Assess and evaluate identified security risks in a workplace.

Range risks identified in Outcome 2.

**Performance criteria**

- 3.1 Assess and prioritise identified security threats and vulnerabilities in relation to likelihood and consequences.
- 3.2 Identify and evaluate existing security measures for adequacy against the identified threats and vulnerabilities.

**Outcome 4**

Identify and evaluate options to minimise identified security risks in a workplace.

Range risks evaluated in Outcome 3.

**Performance criteria**

- 4.1 Identify options that minimise the likelihood of the security risks in accordance with relevant instructions.
- 4.2 Identify options that minimise the consequence of the security risks in accordance with relevant instructions.
- 4.3 Evaluate options against available resources and escalate where available resources or the authority is insufficient in accordance with relevant instructions.

**Outcome 5**

Implement a process to minimise identified security risks in a workplace.

Range risks evaluated in Outcome 3 and a process selected from options evaluated in Outcome 4.

**Performance criteria**

- 5.1 Implement a risk minimisation process in accordance with relevant instructions.
