Elements and performance criteria

Element 1

Demonstrate knowledge of nozzles used in herd testing equipment.

Performance criteria

1.1 Nozzles are described in terms of manufacturer's specifications for animal types and production levels.

Range may include but is not limited to – dairy cattle, goats, sheep.

1.2 Nozzles are described in terms of the reasons for calibration.

Please note

Providers must be accredited by NZQA, or an inter-institutional body with delegated authority for quality assurance, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be accredited by NZQA before they can register credits from assessment against unit standards.

Accredited providers and Industry Training Organisations assessing against unit standards must engage with the moderation system that applies to those standards.

Accreditation requirements and an outline of the moderation system that applies to this standard are outlined in the Accreditation and Moderation Action Plan (AMAP). The AMAP also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.
