Special notes

- 1 This unit standard must be assessed against on-job.
- 2 Personal protective equipment, appropriate to job requirements, is to be selected and used in accordance with worksite policies and procedures and manufacturer's instructions.
- 3 Definitions
Manufacturer's instructions are instructions provided by manufacturers of substances, equipment, and machinery used in furniture making. These instructions may include details on safe and correct handling, use and storage of substances and/or details on substance properties. Examples are labels on substance containers, product data sheets, and operator's manuals.

Worksite policies and procedures refer to documented policies and to documented or other directions provided to staff. These may include, but are not limited to, ways of managing health and safety, environmental considerations, quality, and production, and must conform to legislation. Examples include standard operating procedures, company health and safety plans, on-site briefings, and supervisor's instructions.

Elements and performance criteria

Element 1

Replace a broken or worn out component on a non-show wood furniture frame.

Performance criteria

- 1.1 Furniture article is examined to determine which components need replacing and the reason for replacement is explained in accordance with worksite policies and procedures.
- 1.2 Equipment and tools for the job are selected in accordance with job requirements.
- 1.3 Material to be used for replacement component is selected and making of the component is organised in accordance with worksite policies and procedures.
- 1.4 Component is fixed to furniture article, and the method of fixing is explained, in accordance with worksite policies and procedures.
- 1.5 Work area is left clean, clear, and safe in accordance with worksite policies and procedures.

Element 2

Repair a broken or cracked furniture component on a non-show wood furniture frame.

Performance criteria

- 2.1 Furniture article is examined to determine which component needs repairing and the type of repair is explained in accordance with worksite policies and procedures.
- 2.2 Equipment and tools for the job are selected and confirmed as being in safe working order in accordance with manufacturer's instructions.
- 2.3 Adhesives required for repair are selected in accordance with the type of repair specified in performance criterion 2.1.
- 2.4 Component is repaired to its original strength using the type of repair specified in performance criterion 2.1.
- 2.5 Work area is left clean, clear, and safe in accordance with worksite policies and procedures.

Element 3

Fix a loose joint on a non-show wood furniture frame.

Performance criteria

- 3.1 Furniture article is examined to determine which joints are in need of repair and the best method of repair for those joints is explained in accordance with worksite policies and procedures.
- 3.2 Equipment, tools, and adhesives are selected in accordance with job specifications and confirmed as being in safe working order in accordance with worksite policies and procedures.
- 3.3 Loose joint is disassembled and cleared of old adhesives in accordance with worksite policies and procedures.
- 3.4 Joint is repaired to original condition using the method explained in performance criterion 3.1.
- 3.5 Work area is left clean, clear, and safe in accordance with worksite policies and procedures.

Please note

Providers must be accredited by NZQA, or an inter-institutional body with delegated authority for quality assurance, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be accredited by NZQA before they can register credits from assessment against unit standards.

Accredited providers and Industry Training Organisations assessing against unit standards must engage with the moderation system that applies to those standards.

Accreditation requirements and an outline of the moderation system that applies to this standard are outlined in the Accreditation and Moderation Action Plan (AMAP). The AMAP also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.
