### Guidance Information

1 Definitions

*Colouring aids* refer to foils, highlighting caps and other colouring tools.

*Commercially accepted time-frame* refers to the economically viable time-frame required to complete the task in a salon. This time-frame will reflect industry standards, and will be stipulated to the candidate by the assessor.

*Following service* may include but is not limited to – haircut, blow wave.

*Legislative requirements* refer to the obligations of the employer and/or employee under the Health and Safety in Employment Act 1992 and Health (Hairdressers) Regulations 1980.

*Oxidative colouring product* refers to-midway and permanent colour, powder lightener, highlight through cap, weaves.

*Senior stylist* must be a third party, independent of the assessment process. Neither the candidate nor the assessor can act as the senior stylist for assessment.

*Workplace requirements* mean the practices prescribed by management as being the quality standards for client contact and work organisation for a particular salon.

2 In this unit standard all work must comply with legislative requirements and must ensure optimum hair condition and maximum client comfort at all times.

3 Evidence is required for application and removal of a minimum of four different oxidative colouring services using a variety of products.

4 Assessment is required for application and removal of at least one permanent colour at or below level 5 on-scalp.

5 Assessment is required for application and removal of oxidative colouring product for at least one retouch and at least one full head colour.

**6 Range**

The oxidative colouring products to be used will have been selected and pre-mixed by a senior stylist.
