Guidance Information

- 1 Definitions

BCATS environment refers to any workplace or context where work or activities related to the building, construction and allied trades sector take place, such as school workshops, training establishments, outdoor areas and industry placement workplaces.

BCATS project refers to a project undertaken in a highly structured BCATS environment, using a range of tools, equipment and materials, and involving basic skills.

BCATS project documentation refers to the information and instructions (oral, written, graphic) that detail the parameters of and planning for a BCATS project. The BCATS project documentation may include such things as project briefs, project plans, working drawings, specifications, and quality control procedures, but this will vary depending on the particular BCATS environment and BCATS project.

Workplace practice refers to the procedures specific to a BCATS environment, which cover the standard and required practices of that environment.
- 2 Assessment against this unit standard may occur in any BCATS environment.
- 3 Information supporting assessment decisions should, wherever possible, be collected naturally as the BCATS projects progress.
- 4 Candidates are required to complete a BCATS project. Examples of suitable projects include – tables, rabbit hutches, tool boxes, and projects of similar complexity.

- 5 Legislation relevant to this unit standard includes:
Health and Safety at Work Act 2015;
Health and Safety at Work Regulations 2016.

Outcomes and performance criteria

Outcome 1

Identify and describe types of hardware and fastenings and select hardware and fastenings for a BCATS project.

Performance criteria

- 1.1 Types of hardware and fastenings are identified and described in terms of purpose and use.
- 1.2 BCATS project documentation is obtained, and verified with the supervisor, in accordance with workplace practice.
- 1.3 Hardware and fastenings are selected in accordance with BCATS project documentation and workplace practice.

Outcome 2

Use hardware and fastenings for a BCATS project.

Range at least four of – nails, screws, bolts, common hinges, handles, locks, latches, timber connectors, adhesives, wheels, castors.

Performance criteria

- 2.1 The selected hardware and fastenings are used in accordance with BCATS project documentation, manufacturer's instructions, and workplace practice.

Outcome 3

Complete work operations.

Performance criteria

- 3.1 All operations are safely completed in accordance with workplace practice.
- 3.2 Workplace, tools, plant and equipment are cleaned, and tools, plant and equipment are stored in accordance with workplace practice.

Planned review date	31 December 2023
