

## Fuse interlining to leather garment pieces with fusing press or iron and assemble garment pieces for sewing

**Level** 2

**Credits** 3

**Purpose** People credited with this unit standard are able to identify garment pieces that require interlining, match these pieces to the cut interlining pieces, and fuse the interlining to the garment piece with a fusing press or iron and assemble garment pieces for sewing.

**Subfield** Clothing Manufacture

**Domain** Leather Garment Manufacture

**Status** Registered

**Status date** 19 June 2009

**Date version published** 19 June 2009

**Planned review date** 31 December 2015

**Entry information** Open.

**Accreditation** Evaluation of documentation by NZQA and industry.

**Standard setting body (SSB)** Competenz

**Accreditation and Moderation Action Plan (AMAP) reference** 0030

This AMAP can be accessed at <http://www.nzqa.govt.nz/framework/search/index.do>.

---

### Special notes

- 1 This unit standard is for people working in the leather garment manufacturing industry.
- 2 Competence will be demonstrated with either a fusing press or hand iron depending on the type of equipment available in the workplace.
- 3 Performance of the elements must comply with the Health and Safety in Employment Act 1992.

#### 4 Definitions

*Product, style or garment specifications* are all terms for the same document. The terminology varies between workplaces but they all refer to the documentation that accompanies each manufacturing order. This documentation sets out the material to be used for the garment, the size range for manufacturing, the product assembly sequence, product finishing procedures and the component specifications.

*Workplace procedures* refer to the verbal or documented procedures for performing work activities and include health and safety, operational, environmental, and quality management requirements. They may refer to manuals, manufacturer's specifications, codes of practice, or policy statements.

---

### Elements and performance criteria

#### Element 1

Fuse interlining to garment pieces.

#### Performance criteria

1.1 Interlining pieces are placed on garment pieces according to workplace procedures and garment specifications.

Range pieces identified, alignment, surfaces in contact, edges not overlapped.

1.2 Iron or fusing press is set according to workplace procedures.

1.3 Heat is applied for the period specified in workplace procedures.

1.4 Pieces are fused without wrinkles and with adhesion at all points.

#### Element 2

Assemble garment pieces for sewing.

#### Performance criteria

2.1 Specified garment pieces are present.

2.2 Pieces are assembled according to workplace procedures.

---

#### Please note

Providers must be accredited by NZQA, or an inter-institutional body with delegated authority for quality assurance, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be accredited by NZQA before they can register credits from assessment against unit standards.

Accredited providers and Industry Training Organisations assessing against unit standards must engage with the moderation system that applies to those standards.

Accreditation requirements and an outline of the moderation system that applies to this standard are outlined in the Accreditation and Moderation Action Plan (AMAP). The AMAP also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.
