

Title	Demonstrate basic knowledge of turbine engines in accordance with Subject No 64		
Level	5	Credits	8

Purpose	People credited with this unit standard are able to demonstrate basic knowledge of turbine engines in accordance with Subject No 64.
----------------	--

Classification	Aviation > Aircraft Operation
-----------------------	-------------------------------

Available grade	Achieved
------------------------	----------

Entry information	
Recommended skills and knowledge	Industry requirements are that the candidate must meet the eligibility requirements of the Civil Aviation Act 1990 and the Civil Aviation Rule Part 61 for a private pilot licence.

Explanatory notes

- 1 This unit standard is aligned with the relevant parts of the prescribed syllabi of the Civil Aviation Authority of New Zealand (CAA) for Subject No 64 *Basic Turbine Knowledge*, for a first aircraft turbine type rating. Credit will be awarded on meeting the requirements of the CAA-approved assessment or examination.
- 2 Definitions, abbreviations, and acronyms used in this unit standard are to be found in:
 - a *Civil Aviation Rules Part 1* on the CAA website at <https://www.caa.govt.nz>, and
 - b *Aeronautical Information Publication (AIP)* published by Aeronautical Information Management (AIM), PO Box 294, Wellington 6140 or on the AIM website at <http://www.aip.net.nz>.
- 3 All references to the CAA refer specifically to the Civil Aviation Authority of New Zealand.
- 4 Industry standards and recommended practices are those set in place by the CAA.
- 5 Industry texts may include but are not limited to – aircraft flight manuals, CAA Rules, CAA Advisory Circulars, NZCAA Flight Test Standards Guides, operator exposition.
- 6 For the purpose of this unit standard, *knowledge* refers to the knowledge, understanding, and application of the subject matter.

Outcomes and evidence requirements

Outcome 1

Demonstrate basic knowledge of turbine engines in accordance with Subject No 64.

Evidence requirements

- 1.1 Basic turbine engine theory is described in accordance with industry texts and standards.
- Range includes but is not limited to – Newton’s third law of motion, Boyle’s Law, Charles’ Law, Bernoulli’s Theorem.
- 1.2 Turbine engine types are described in accordance with industry texts and standards.
- Range includes but is not limited to – turbofan, prop fan, turbojet, turboprop.
- 1.3 Turbine engine inlet systems are described in accordance with industry texts and standards.
- 1.4 Turbine engine compressors and their component parts are described in accordance with industry texts and standards.
- 1.5 Turbine engine combustion section is described in accordance with industry texts and standards.
- 1.6 Turbine engine turbine section and its component parts are described in accordance with industry texts and standards.
- 1.7 Turbine engine exhaust section and its principles of operation are described in accordance with industry texts and standards.
- Range includes but is not limited to – convergent, convergent-divergent nozzles.
- 1.8 Thrust reversers and their purpose are described in accordance with industry texts and standards.
- 1.9 Turbine engine fuel systems are described in accordance with industry texts and standards.
- 1.10 Turbine engine lubrication systems are described in accordance with industry texts and standards.
- 1.11 Turbine engine starting, ignition, relight, and shutdown are described in accordance with industry texts and standards.
- 1.12 Turbine engine air cooling and sealing is described in accordance with industry texts and standards.

- 1.13 Turbine engine indicating and instrumentation are described in accordance with industry texts and standards.
- 1.14 Turbine engine performance is defined and described in accordance with industry texts and standards.

Planned review date	31 December 2021
----------------------------	------------------

Status information and last date for assessment for superseded versions

Process	Version	Date	Last Date for Assessment
Registration	1	18 June 2010	31 December 2018
Review	2	20 October 2016	N/A

Consent and Moderation Requirements (CMR) reference	0169
--	------

This CMR can be accessed at <http://www.nzqa.govt.nz/framework/search/index.do>.

Please note

Providers must be granted consent to assess against standards (accredited) by NZQA, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be granted consent to assess against standards by NZQA before they can register credits from assessment against unit standards.

Providers and Industry Training Organisations, which have been granted consent and which are assessing against unit standards must engage with the moderation system that applies to those standards.

Requirements for consent to assess and an outline of the moderation system that applies to this standard are outlined in the Consent and Moderation Requirements (CMR). The CMR also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.
