

<b>Title</b>	<b>Demonstrate flying skills for a commercial pilot licence (glider)</b>		
<b>Level</b>	<b>5</b>	<b>Credits</b>	<b>8</b>

<b>Purpose</b>	People credited with this unit standard are, for a commercial pilot's licence (glider), able to demonstrate: general knowledge for a glider flight test; piloting techniques for glider operations.
----------------	---

<b>Classification</b>	Aviation > Aircraft Operation
-----------------------	-------------------------------

<b>Available grade</b>	Achieved
------------------------	----------

<b>Entry information</b>	
<b>Recommended skills and knowledge</b>	Industry requirements are that the candidate must meet the eligibility requirements of the Civil Aviation Act 1990 and the Civil Aviation Rule Part 61 for a commercial pilot licence.

### Explanatory notes

- 1 The test flight covered by this unit standard must be demonstrated in accordance with the Civil Aviation Rules Part 61 and 91, and other relevant rules, published by the Civil Aviation Authority of New Zealand (CAA), PO Box 3555, Wellington 6140, and their subsequent amendments.
- 2 This unit standard is aligned with the relevant parts of the prescribed syllabi of the CAA for a commercial pilot licence. Credit will be awarded on meeting the requirements of the CAA-approved assessment or examination.
- 3 Definitions, abbreviations, and acronyms used in this unit standard are to be found in:
  - a *Civil Aviation Rules Part 1* on the CAA website at <https://www.caa.govt.nz>, and
  - b *Aeronautical Information Publication (AIP)* published by Aeronautical Information Management (AIM), PO Box 294, Wellington 6140 or on the AIM website at <http://www.aip.net.nz>.
- 4 All references to the CAA refer specifically to the Civil Aviation Authority of New Zealand.
- 5 Industry standards and recommended practices are those set in place by the CAA.
- 6 Industry texts may include but are not limited to – aircraft flight manuals, CAA Rules, CAA Advisory Circulars, CAA Flight Test Standards Guides, operator exposition.

---

## Outcomes and evidence requirements

### Outcome 1

Demonstrate general knowledge for a glider flight test.

#### Evidence requirements

- 1.1 Aircraft documents are described in accordance with industry texts and standards.
- 1.2 Pre-take-off checks and aircraft performance requirements are described in accordance with the aircraft's checklist and industry texts and standards.
- 1.3 Aircraft loading is described in accordance with the aircraft flight manual and industry standards.  
  
Range includes but is not limited to – weight and balance limitations.
- 1.4 Aircraft inspection, pilot maintenance and pre-flight check are described in accordance with the aircraft flight manual and industry standards.
- 1.5 Location, use, and operation of emergency equipment are described in accordance with the aircraft flight manual and industry standards.
- 1.6 Pre-flight equipment check is demonstrated in accordance with industry texts and standards.
- 1.7 Emergency signals to and from tug aircraft for a glider under tow are described in accordance with the aircraft flight manual and industry standards.
- 1.8 Rope and cable break procedures are described in accordance with industry texts and standards.
- 1.9 Care and use of oxygen equipment is described in accordance with industry texts and standards.
- 1.10 Licence privileges are described in accordance with industry texts and standards.

### Outcome 2

Demonstrate piloting techniques for glider operations.

#### Evidence requirements

- 2.1 Pre-flight operations are carried out in accordance with the aircraft flight manual and industry standards.  
  
Range includes but is not limited to installation of – wings, tail surfaces, flying control systems.

- 2.2 Air Traffic Service procedures are demonstrated in accordance with AIP and CAA Rules.
- 2.3 Take-off and climb are demonstrated in accordance with the aircraft flight manual and industry standards.
- 2.4 Take-off and landing are demonstrated in accordance with the aircraft flight manual and industry standards.
- Range includes but is not limited to – into wind, crosswind.
- 2.5 Action after release is demonstrated in accordance with the aircraft flight manual and industry standards.
- 2.6 Turns onto compass headings are demonstrated in accordance with the aircraft flight manual and industry standards.
- 2.7 Compass headings are maintained in accordance with the aircraft flight manual and industry standards.
- 2.8 Medium turns are demonstrated in accordance with the aircraft flight manual and industry standards.
- 2.9 Stall onset and recovery are demonstrated in accordance with the aircraft flight manual and industry standards.
- 2.10 Fully developed stall and recovery are demonstrated in accordance with the aircraft flight manual and industry standards.
- 2.11 Stall-spin situations are demonstrated in accordance with the aircraft flight manual and industry standards.
- 2.12 Steep turns are demonstrated in accordance with the aircraft flight manual and industry standards.
- 2.13 Sideslipping is demonstrated in accordance with the aircraft flight manual and industry standards.
- 2.14 Simulated paddock landing with covered altimeter is demonstrated in accordance with the aircraft flight manual and industry standards.

<b>Consent and Moderation Requirements (CMR) reference</b>	0169
--	------

This CMR can be accessed at <http://www.nzqa.govt.nz/framework/search/index.do>.

**Please note**

Providers must be granted consent to assess against standards (accredited) by NZQA, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be granted consent to assess against standards by NZQA before they can register credits from assessment against unit standards.

Providers and Industry Training Organisations, which have been granted consent and which are assessing against unit standards must engage with the moderation system that applies to those standards.

Requirements for consent to assess and an outline of the moderation system that applies to this standard are outlined in the Consent and Moderation Requirements (CMR). The CMR also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.
