

Title	Describe, issue, and monitor resources for daily activities on an infrastructure worksite		
Level	4	Credits	10

Purpose	People credited with this unit standard are able to: describe daily activities on an infrastructure worksite; match plant, equipment, vehicles, and operators to daily worksite activities; and issue and monitor plant, equipment, vehicles, and operators on worksite activities.
----------------	---

Classification	Infrastructure Works > Infrastructure Works Supervision
-----------------------	---

Available grade	Achieved
------------------------	----------

Guidance Information

- 1 Evidence presented for assessment against this unit standard must be consistent with safe working practices and be in accordance with relevant legislative and industry requirements.
- 2 Legislation and references relevant to this unit standard include:
 - Health and Safety at Work Act 2015;
 - *Approved Code of Practice for Operator Protective Structures on Self-Propelled Mobile Mechanical Plant*, available from <https://worksafe.govt.nz>;
 - *Operator Safety Manual for Earthmoving Machinery*, available from <http://www.connexis.org.nz>;
 - and all subsequent amendments and replacements.
- 3 Definitions

Industry requirements refer to relevant policies, processes, methodologies, industry codes of practice, site specific health and safety plans, standard operating procedures, site safety plans, quality plans, work plans, traffic management plans, contract work programmes, job safety analysis, safe work method statements, job instructions, manufacturer's requirements, contract specifications, manuals, procedural documents.

Worksite requirements refer to the location, materials, topography, environment, proximity to public facilities, adjacent work, and legal requirements.

Resources refer to plant, equipment, vehicles, and operators.

Outcomes and performance criteria

Outcome 1

Describe daily activities on an infrastructure worksite.

Performance criteria

- 1.1 Worksite conditions are described.
- 1.2 Characteristics of materials to be manipulated are described.
- 1.3 Restrictions imposed on plant, equipment, and vehicle selection by task and worksite requirements are described.

Outcome 2

Match plant, equipment, vehicles, and operators to daily worksite activities.

Performance criteria

- 2.1 Capabilities of plant, equipment, and vehicles are assessed to meet task and worksite requirements.
- 2.2 Plant, equipment, and vehicle requirements for worksites are planned in relation to daily worksite activities.
Range weather forecasts, sequence, lead-time, delivery dates, cycle times, recording.
- 2.3 Plant, equipment, and vehicles are confirmed as available within worksite time restraints.
- 2.4 Skills of operators are checked against worksite requirements.

Outcome 3

Issue and monitor plant, equipment, vehicles, and operators on worksite activities.

Performance criteria

- 3.1 Plant, equipment, and vehicles are obtained and issued.
- 3.2 Operating personnel are assigned and monitored.
- 3.3 Adjustments to meet contingencies are made to planned use of plant, equipment, vehicles, and operators.
- 3.4 Cost and time for use of plant, equipment, and vehicles are monitored and recorded.
- 3.5 Hired plant, if required, is sourced and utilised, monitored, and recorded in accordance with hire company requirements.

Planned review date	31 December 2026
