----------------	---

Classification	Infrastructure Works > Infrastructure Works Supervision
-----------------------	---

Available grade	Achieved
------------------------	----------

Guidance information

- 1 Assessment against this unit standard must take place in a workplace environment. Assessment parameters will be dependent on company and site-specific equipment, procedures, and practices. Practices must reflect industry best practice and comply with legislative requirements.
- 2 Definition
Company requirements include the policy, procedures, and methodologies of the company. They include legislative and regulatory requirements that may apply across the company or to a specific site. Requirements are documented in the company's health and safety plans, traffic management plans, contract work programmes, quality assurance programmes, policies, and procedural documents.

Outcomes and performance criteria

Outcome 1

Identify people affected by activities at an infrastructure works site.

Performance criteria

- 1.1 Members of the public affected by works site activities are identified in accordance with company requirements.
- 1.2 Other people affected by works site activities are identified in accordance with company requirements.

Outcome 2

Liaise with people affected by activities at an infrastructure works site.

Range evidence is required of liaison with three people affected by works site activities including at least two members of the public.

Performance criteria

- 2.1 The nature of works site disruption is communicated in accordance with company requirements.
- 2.2 The extent of works site disruption is communicated in accordance with company requirements.

Planned review date	31 December 2023
