

Title	Demonstrate knowledge of flight planning for an airline transport pilot licence (helicopter)		
Level	6	Credits	6

Purpose	People credited with this unit standard are able, for an airline transport pilot licence (helicopter) in accordance with Subject No 41, to demonstrate knowledge of: flight planning terminology; route selection; navigation plan preparation; fuel planning; and enroute diversion calculations.
----------------	--

Classification	Aviation > Aircraft Operation
-----------------------	-------------------------------

Available grade	Achieved
------------------------	----------

Entry information	
Critical health and safety prerequisites	Industry requirements are that the candidate must meet the eligibility requirements of the Civil Aviation Act 1990 and the Civil Aviation Rules Part 61 for an airline transport pilot licence (helicopter).

Explanatory notes

- 1 This unit standard is aligned with the relevant parts of the prescribed syllabi of the Civil Aviation Authority of New Zealand (CAA) for Subject No 41 for an airline transport pilot licence (helicopter). Credit will be awarded upon meeting the requirements of the CAA-approved assessment or examination.
- 2 An airline transport pilot licence permits the holder to conduct aircraft operations as pilot-in-command in an aircraft requiring a co-pilot.
- 3 Definitions, abbreviations, and acronyms used in this unit standard are to be found in:
 - a *Civil Aviation Rules Part 1* on the CAA website at <https://www.caa.govt.nz>, and
 - b *Aeronautical Information Publication (AIP)* published by Aeronautical Information Management (AIM), PO Box 294, Wellington 6140 or on the AIM website at <http://www.aip.net.nz>.
- 4 All references to the CAA refer specifically to the Civil Aviation Authority of New Zealand.
- 5 Industry standards and recommended practices are those set in place by the CAA.
- 6 Industry texts may include but are not limited to – aircraft flight manuals, CAA Rules, CAA Advisory Circulars, CAA Flight Test Standards Guides, operator exposition.

- 7 For the purpose of this unit standard, *knowledge* refers to knowledge, understanding, and application of the subject matter.
-

Outcomes and evidence requirements

Outcome 1

Demonstrate knowledge of flight planning terminology in accordance with Subject No 41.

Evidence requirements

- 1.1 Flight planning definitions, terminology and abbreviations are defined in accordance with industry texts and standards.

Outcome 2

Demonstrate knowledge of route selection in accordance with Subject No 41.

Evidence requirements

- 2.1 Factors to be considered in route selection are described in accordance with industry texts and standards.

Outcome 3

Demonstrate knowledge of navigation plan preparation in accordance with Subject No 41.

Evidence requirements

- 3.1 TAS, climb speeds, descent speeds, and the respective time allowances are derived in accordance with industry texts and standards.

- 3.2 Meteorological information is interpreted in accordance with industry texts and standards.

Range may include but is not limited to – reports, area forecasts, meteorological reports, trend forecasts, aerodrome forecasts, SIGMET.

- 3.3 Flight plan calculations for an IFR cross-country flight are demonstrated in accordance with industry texts and standards.

Range may include but is not limited to – top of climb point, level cruise portion, top of descent point, TAS, tracks.

Outcome 4

Demonstrate knowledge of fuel planning in accordance with Subject No 41.

Evidence requirements

4.1 Fuel calculations are derived in accordance with industry texts and standards.

Range includes but is not limited to – fuel capacities, useable fuel, standard fuel flows, standard fuel allowances, fuel flow for a given leg/flight.

Outcome 5

Demonstrate enroute diversion calculations in accordance with Subject No 41.

Evidence requirements

5.1 Enroute diversion calculations are demonstrated in accordance with industry texts and standards.

Range may include but is not limited to – time and distance to the point of no return, time and distance to the critical point/equi-time point, position following diversion off track.

Planned review date	31 December 2021

Consent and Moderation Requirements (CMR) reference	0169
--	------

This CMR can be accessed at <http://www.nzqa.govt.nz/framework/search/index.do>.

Please note

Providers must be granted consent to assess against standards (accredited) by NZQA, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be granted consent to assess against standards by NZQA before they can register credits from assessment against unit standards.

Providers and Industry Training Organisations, which have been granted consent and which are assessing against unit standards must engage with the moderation system that applies to those standards.

Requirements for consent to assess and an outline of the moderation system that applies

to this standard are outlined in the Consent and Moderation Requirements (CMR). The CMR also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.
