Guidance Information

1 References

Legislative requirements applicable to unit standard include – Health and Safety at Work Act 2015, Health and Safety at Work (Hazardous Substances) Regulations 2017, and Hazardous Substances and New Organisms Act 1996.

2 Definitions

Certified handler – a person who is qualified to handle very hazardous substances. A certified handler may also provide guidance and assistance to other people handling the substances.

Hazardous substance – any substance that has one or more of the following properties (explosive, flammable, tendency to oxidize, corrosive, toxic, eco-toxic) when above specified levels. A hazardous substance can have more than one hazardous property such as petrol which is flammable and toxic.

Organisational requirements – instructions to staff on policies and procedures which are documented in memo or manual format. These requirements include but are not limited to – site-specific requirements and any company quality management requirements.

3 Certified handlers are not responsible for classifying hazardous substances and it is not their responsibility or duty to draw/mark a hazardous zone on a site plan.

Outcomes and performance criteria

Outcome 1

Demonstrate knowledge of hazard classifications for flammable gases and aerosols.

Performance criteria

- 1.1 Hazard classifications for flammable gases and aerosols are identified and described in terms of the properties for flammable gases and aerosols.
- 1.2 Flammable gases and aerosol phases, pressures and lifecycles are described in accordance with legislative requirements.

Outcome 2

Identify adverse effects associated with flammable gases and aerosols.

Performance criteria

- 2.1 Adverse effects associated with the use and misuse of flammable gases and aerosols are identified and described in accordance with legislative and organisational requirements.
- 2.2 Precautions required to prevent unintended adverse effects associated with the use of flammable gases and aerosols, are described in accordance with legislative and organisational requirements.
