- 4 Evidence is required of a minimum of five wallcovering jobs requiring advanced wallcovering techniques.

---

## Outcomes and evidence requirements

### Outcome 1

Plan and prepare to apply wallcovering using advanced techniques.

#### Evidence requirements

- 1.1 Work instructions and operational details are obtained and confirmed in accordance with worksite requirements.
- 1.2 Safety instructions are followed in accordance with worksite and legislative requirements.
- 1.3 Signage and barricade requirements are identified and implemented in accordance with worksite and legislative requirements.
- 1.4 Tools and equipment are selected to meet the job requirements, and checked for serviceability prior to commencement of work in accordance with worksite requirements.
- 1.5 Material quantities are calculated to meet the job requirements in accordance with worksite requirements.
- 1.6 Any environmental requirements are identified in accordance with worksite and legislative requirements.

### Outcome 2

Prepare surface for applying wallcovering using advanced techniques.

#### Evidence requirements

- 2.1 Condition, suitability and nature of existing substrate and surface material are determined and removal process is selected, if required, in accordance with worksite requirements.
- 2.2 Hazards are identified and actions taken to reduce risk to self and others in accordance with worksite and legislative requirements.
- 2.3 Surfaces are prepared for wallcovering application by removing existing coating and loose debris in accordance with worksite requirements.
- 2.4 Any surface defects are repaired and imperfections stopped, filled and sanded to smooth finish ready for applying wallcovering in accordance with manufacturer's specifications and worksite requirements.

### Outcome 3

Prepare to apply wallcovering using advanced techniques.

**Evidence requirements**

- 3.1 Application plan for hanging wallcovering is determined in accordance with worksite requirements.
- 3.2 Selected adhesives are prepared in accordance with manufacturer's specifications and worksite requirements.
- 3.3 Materials are checked for conformity to dye lot, batch number and other shading requirements in accordance with manufacturer's specifications and worksite requirements.

**Outcome 4**

Apply wallcovering using advanced techniques.

**Evidence requirements**

- 4.1 Size coating is applied to work area in accordance with manufacturer's specifications and worksite requirements.
- 4.2 Wallcovering and speciality materials are applied to work area ensuring an even surface, seams are butted, paper is plumb and pattern is free of defects in accordance with worksite requirements.
- 4.3 Trimming around fittings is completed with minimal impact on surroundings in accordance with worksite requirements.
- 4.4 Wallcovering and speciality materials application is completed in accordance with worksite requirements.

**Outcome 5**

Clean up and store wallcovering equipment.

**Evidence requirements**

- 5.1 Unused materials are sealed and stored in accordance with worksite and legislative requirements.
- 5.2 Work area is cleared and materials are disposed of, reused, or recycled in accordance with worksite and legislative requirements.
- 5.3 Tools and equipment are cleaned, checked, maintained and stored in accordance with manufacturer's specifications and worksite requirements.

<b>Replacement information</b>	This unit standard replaced unit standard 1077 and unit standard 1078.

This CMR can be accessed at <http://www.nzqa.govt.nz/framework/search/index.do>.

#### Please note

Providers must be granted consent to assess against standards (accredited) by NZQA, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be granted consent to assess against standards by NZQA before they can register credits from assessment against unit standards.

Providers and Industry Training Organisations, which have been granted consent and which are assessing against unit standards must engage with the moderation system that applies to those standards.

Requirements for consent to assess and an outline of the moderation system that applies to this standard are outlined in the Consent and Moderation Requirements (CMR). The CMR also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.
