Explanatory notes

- 1 Legislation and references relevant to this unit standard include – Health and Safety in Employment Act 1992; Resource Management Act 1991; Hazardous Substances and New Organisms Act 1996; available at <http://legislation.govt.nz>; AS/NZS 2311:2009 *Guide to the painting of buildings*, available at <http://www.standards.co.nz/>.
- 2 Definition
Worksite requirements refer to job instructions to candidate on agreed work to be carried out.

Outcomes and evidence requirements

Outcome 1

Plan and prepare to apply decorative paint finishes.

Evidence requirements

- 1.1 Work instructions and operational details are obtained and confirmed in accordance with worksite requirements.
- 1.2 Safety instructions are followed in accordance with worksite and legislative requirements.
- 1.3 Signage and barricade requirements are identified and implemented in accordance with worksite and legislative requirements.

- 1.4 Plant, tools and equipment are selected to meet the worksite requirements, and checked for serviceability prior to commencement of work in accordance with worksite requirements.
- 1.5 Material quantities are calculated to meet the job requirements in accordance with worksite requirements.
- 1.6 Any environmental requirements are identified in accordance with worksite and legislative requirements.

Outcome 2

Prepare work area and materials for applying decorative paint finishes.

Evidence requirements

- 2.1 Materials are prepared and substrate surface checked in accordance with manufacturer's specifications and worksite requirements.
- 2.2 Adjoining areas to application area are protected in accordance with worksite requirements.
- 2.3 Ventilation is provided in application area to maintain safety of self and others in accordance with worksite and legislative requirements.
- 2.4 Measures are taken to ensure application area is dust free in accordance with worksite requirements.

Outcome 3

Apply broken colour effects.

Evidence requirements

- 3.1 Base coat of specified colour and consistency is applied evenly to a pre-prepared surface for broken colour effects in accordance with worksite requirements.
- 3.2 Scumble glaze is applied to prepared base coat and desired broken colour effect is produced to match sample in accordance with manufacturer's specifications and/or worksite requirements.
- 3.3 Clear coating is applied to achieve an even finish to agreed sheen levels in accordance with manufacturer's specifications and/or worksite requirements.

Outcome 4

Apply glaze finishes.

Evidence requirements

- 4.1 Glaze finishes are applied to achieve an even finish to agreed sheen levels in accordance with manufacturer's specifications and/or worksite requirements.

Outcome 5

Apply lining by brush.

Evidence requirements

- 5.1 Lining work is selected and set out to designed effect on a pre-prepared surface in accordance with worksite requirements.
- 5.2 Paint materials, applicators and brushware are identified and selected in accordance with suitability of use for lining application and worksite requirements.
- 5.3 Application techniques are used to produce designed lining work effects and finish in accordance with manufacturer's specifications and/or worksite requirements.

Outcome 6

Apply stencilling.

Evidence requirements

- 6.1 Stencil design is selected and laid out onto material in accordance with worksite requirements.
- 6.2 Stencil transfer method is used and design is cut in accordance with worksite requirements.
- 6.3 Initial stencil is placed and taped to designated location and paint is applied to produce colour in accordance with worksite requirements.

Outcome 7

Clean up and store equipment used for applying decorative paint finishes.

Evidence requirements

- 7.1 Unused materials are sealed and stored in accordance with worksite and legislative requirements.
- 7.2 Work area is cleared and materials are disposed of, reused, or recycled in accordance with worksite and legislative requirements.
- 7.3 Tools and equipment are cleaned, checked, maintained and stored in accordance with manufacturer's specifications and worksite requirements.

Replacement information	This unit standard replaced unit standard 1063, unit standard 1070, unit standard 1082, and unit standard 1271.

Consent and Moderation Requirements (CMR) reference	0048
--	------

This CMR can be accessed at <http://www.nzqa.govt.nz/framework/search/index.do>.

Please note

Providers must be granted consent to assess against standards (accredited) by NZQA, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be granted consent to assess against standards by NZQA before they can register credits from assessment against unit standards.

Providers and Industry Training Organisations, which have been granted consent and which are assessing against unit standards must engage with the moderation system that applies to those standards.

Requirements for consent to assess and an outline of the moderation system that applies to this standard are outlined in the Consent and Moderation Requirements (CMR). The CMR also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.
