- 4 Evidence is required of a minimum of five texturing jobs.

---

### Outcomes and evidence requirements

#### Outcome 1

Plan and prepare to apply texture system and finishes.

#### Evidence requirements

- 1.1 Work instructions and operational details are obtained and confirmed in accordance with worksite requirements.

- 1.2 Safety instructions are followed in accordance with worksite and legislative requirements.
- 1.3 Signage and barricade requirements are identified and implemented in accordance with worksite and legislative requirements.
- 1.4 Tools and equipment are selected to meet the job requirements, and checked for serviceability prior to commencement of work in accordance with worksite requirements.
- 1.5 Material quantities are calculated to meet the job requirements in accordance with worksite requirements.
- 1.6 Any environmental requirements are identified in accordance with worksite and legislative requirements.

## **Outcome 2**

Prepare application area for applying texture system and finishes.

### **Evidence requirements**

- 2.1 Area is set up for application processes to suit application system being used in accordance with worksite and legislative requirements.
- 2.2 Adjoining surfaces to application area are protected in accordance with worksite requirements.
- 2.3 Ventilation is provided in application area to maintain safety of self and others in accordance with worksite and legislative requirements.
- 2.4 Measures are taken to ensure application area is dust free in accordance with worksite requirements.
- 2.5 Application system and equipment are prepared for use in accordance with worksite requirements.
- 2.6 Fittings are checked for function and security prior to use in accordance with manufacturer's specifications and worksite requirements.
- 2.7 Texture system is mixed and adjusted to allow for application process in accordance with manufacturer's specifications and worksite requirements.

## **Outcome 3**

Apply texture system.

### **Evidence requirements**

- 3.1 Application equipment is used in accordance with manufacturer's specifications and worksite requirements.

- 3.2 Texture system is applied to surface using specified application technique to achieve an even or specified finish in accordance with worksite requirements.
- 3.3 Any defects in the texture system are identified and corrective action taken to achieve the required finish in accordance with worksite requirements.

#### Outcome 4

Clean up and store equipment used for applying texture system and finishes.

#### Evidence requirements

- 4.1 Unused materials are sealed and stored in accordance with worksite and legislative requirements.
- 4.2 Work area is cleared and materials are disposed of, reused, or recycled in accordance with worksite and legislative requirements.
- 4.3 Tools and equipment are cleaned, checked, maintained and stored in accordance with manufacturer's specifications and worksite requirements.

<b>Replacement information</b>	This unit standard replaced unit standard 1069 and unit standard 1080.

This CMR can be accessed at <http://www.nzqa.govt.nz/framework/search/index.do>.

#### Please note

Providers must be granted consent to assess against standards (accredited) by NZQA, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be granted consent to assess against standards by NZQA before they can register credits from assessment against unit standards.

Providers and Industry Training Organisations, which have been granted consent and which are assessing against unit standards must engage with the moderation system that applies to those standards.

Requirements for consent to assess and an outline of the moderation system that applies to this standard are outlined in the Consent and Moderation Requirements (CMR). The CMR also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.
