

Title	Demonstrate knowledge of wallcovering and its application		
Level	3	Credits	8

Purpose	<p>This general unit standard is for people working in the painting and decorating sector.</p> <p>People credited with this unit standard are able to: demonstrate knowledge of the types of wallcovering; describe the process by which wallcovering is applied to surfaces; and demonstrate knowledge of defects in wallcovering.</p>
----------------	---

Classification	Construction Trades > Painting and Decorating
-----------------------	---

Available grade	Achieved
------------------------	----------

Explanatory notes

Legislation and references relevant to this unit standard include – Health and Safety in Employment Act 1992; Resource Management Act 1991; Hazardous Substances and New Organisms Act 1996; available at <http://legislation.govt.nz>; AS/NZS 2311:2009 *Guide to the painting of buildings*, available at <http://www.standards.co.nz>.

Outcomes and evidence requirements

Outcome 1

Demonstrate knowledge of the types of wallcovering.

Evidence requirements

1.1 Wallcovering is described in terms of its types.

Range includes – lining paper, vinyl, plain analgypta, flock, composition, borders, linen backed vinyl, metallic foils, photo murals, suede, grass weaves, and other commercial grade materials; evidence of five different types is required.

1.2 Wallcovering types are described in terms of their characteristics.

Outcome 2

Describe the process by which wallcovering is applied to surfaces.

Evidence requirements

2.1 The techniques by which wallcovering is applied to surfaces are described.

Range wallcovering techniques include – walls and ceilings, which may be constructed of: set plaster, plasterboard, fibrous plaster, medium density fibre board, fibre cement products; walls may be flat or curved.

2.2 Atmospheric influences that affect drying conditions are identified and described in terms of their effect.

Range includes – temperature, humidity, moisture, pollutants.

2.3 Substrate influences which affect drying conditions are identified and described in terms of their effect.

Range includes – temperature, composition, reactivity.

Outcome 3

Demonstrate knowledge of defects in wallcovering.

Range defects include – bubbling, lifting, peeling, wrinkling.

Evidence requirements

3.1 Types of defects in wallpapering are described in terms of their causes.

3.2 Possible causes of action to rectify the defects are identified and described.

Process	Version	Date	Last Date for Assessment
Registration	1	18 August 2011	31 December 2016
Review	2	19 February 2015	N/A

Consent and Moderation Requirements (CMR) reference	0048
--	------

This CMR can be accessed at <http://www.nzqa.govt.nz/framework/search/index.do>.

Please note

Providers must be granted consent to assess against standards (accredited) by NZQA, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be granted consent to assess against standards by NZQA before they can register credits from assessment against unit standards.

Providers and Industry Training Organisations, which have been granted consent and which are assessing against unit standards must engage with the moderation system that applies to those standards.

Requirements for consent to assess and an outline of the moderation system that applies to this standard are outlined in the Consent and Moderation Requirements (CMR). The CMR also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.

Comments on this unit standard
