Element 2

Prepare cut work for the production processes in the clothing industry.

Performance criteria

2.1 Cut work is bundled in accordance with workplace procedures.

2.2 Recuts are identified and actioned in accordance with workplace procedures.

Range recut, material matching, documentation, ply sequence maintained.

2.3 Cut quantities are counted and checked against order requirements, and action is taken in accordance with workplace procedures.

2.4 Documentation is completed in accordance with workplace procedures.

Please note

Providers must be accredited by NZQA, or an inter-institutional body with delegated authority for quality assurance, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be accredited by NZQA before they can register credits from assessment against unit standards.

Accredited providers and Industry Training Organisations assessing against unit standards must engage with the moderation system that applies to those standards.

Accreditation requirements and an outline of the moderation system that applies to this standard are outlined in the Accreditation and Moderation Action Plan (AMAP). The AMAP also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.
