

<b>Title</b>	<b>Troubleshoot and rectify faults when undertaking fibreboard packaging production and solve workplace problems</b>		
<b>Level</b>	<b>4</b>	<b>Credits</b>	<b>20</b>

<b>Purpose</b>	People credited with this unit standard are able to troubleshoot and rectify faults when undertaking fibreboard packaging production and solve workplace problems.
----------------	--

<b>Classification</b>	Fibreboard Packaging > Fibreboard Packaging Production
-----------------------	--

<b>Available grade</b>	Achieved
------------------------	----------

<b>Entry information</b>	
<b>Critical health and safety prerequisites</b>	Unit 340, <i>Demonstrate knowledge of safe working practices in the print industry</i> , or demonstrate equivalent knowledge and skills.

### Explanatory notes

- 1 Candidates must follow any applicable and recognised codes of practice, and documented workplace health, safety, and environmental procedures for personal, product, and workplace health, safety, and environmental matters, and the obligations required under current law including the Health and Safety in Employment Act 1992, and subsequent amendments.
- 2 Evidence is required to demonstrate that a minimum of 20 faults and/or problems relating to fibreboard packaging have been rectified and solved. This evidence must include the following:
  - at least four fibreboard packaging production faults related to materials;
  - at least four fibreboard packaging production faults related to machinery and/or equipment;
  - at least two workplace problems which may include but are not limited to problems relating to – workflow, workplace procedures, workplace systems, record keeping, communication of information.
- 3 For assessment against this unit standard candidates must complete and sign off a logbook.

## 4 Definitions

*Faults and problems* refer to conditions in product, machinery, equipment, resources, or systems that result in not meeting the highest quality standards for product or service.

*Workplace practices* refer to the documented procedures for the machine and/or workplace.

---

## Outcomes and evidence requirements

### Outcome 1

Troubleshoot and rectify faults when undertaking fibreboard packaging production and solve workplace problems.

### Evidence requirements

- 1.1 Fibreboard packaging production faults encountered when undertaking printing production operations are identified, analysed, and their causes explained in accordance with workplace practices.
- 1.2 Fibreboard packaging production faults are rectified, and the procedures for rectifying these faults are explained and recorded, in accordance with workplace practices.
- 1.3 Workplace problems are solved, and the procedures for solving these problems are explained and recorded, in accordance with workplace practices.

<b>Replacement information</b>	This unit standard replaced unit standard 23737.

<b>Consent and Moderation Requirements (CMR) reference</b>	0005
--	------

This CMR can be accessed at <http://www.nzqa.govt.nz/framework/search/index.do>.

### Please note

Providers must be granted consent to assess against standards (accredited) by NZQA, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be granted consent to assess against standards by NZQA before they can register credits from assessment against unit standards.

Providers and Industry Training Organisations, which have been granted consent and which are assessing against unit standards must engage with the moderation system that applies to those standards.

Requirements for consent to assess and an outline of the moderation system that applies to this standard are outlined in the Consent and Moderation Requirements (CMR). The CMR also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.
