Guidance Information

- 1 Definition
Workplace practice refers to the documented procedures specific to a workplace which set out the standard and required practices of that workplace.
- 2 Legislation and publications relevant to this unit standard include:
Health and Safety in Employment Act 1992 and Health and Safety in Employment Regulations 1995;
Building Act 2004;
New Zealand Building Code.

Outcomes and performance criteria

Outcome 1

Determine requirements for the manufacture, packing and stacking of prefabricated timber products.

Performance criteria

- 1.1 Labelling requirements for packing prefabricated timber products and site fixings are determined in accordance with workplace practice.

Range labelling sequence, labelling details, labelling methods.
- 1.2 Stacking order of prefabricated timber products is determined in terms of safe carriage, building sequence on site and site constraints, and reasons for selecting this order are explained.

- 1.3 The requirements for manufacturing prefabricated timber products are determined and their importance to the manufacturing process is explained in terms of production efficiencies and minimising waste.

Range economical use of timber, job planning, production assembly scheduling, order of output, documentation.

This unit standard is expiring. Assessment against the standard must take place by the last date for assessment set out below.

Status information and last date for assessment for superseded versions

| Process | Version | Date | Last Date for Assessment |
|--------------|---------|------------------|--------------------------|
| Registration | 1 | 15 January 2013 | 31 December 2023 |
| Review | 2 | 16 December 2021 | 31 December 2023 |
