Carcass Trim Standards, available from Meat Industry Association at <https://mia.co.nz/resources/current-3/carcass-trim/>.

- 3 Definitions

Boning – a retained or restricted carcass that is boned under supervision of an official assessor to verify separation from non-retained product.

Official assessor is an ante-mortem and post-mortem examiner appointed under Section 79 of the Animal Products Act 1999 to carry out animal material and animal product examinations.

Organisational requirements – instructions to staff on policies and procedures that are documented in memo, electronic, or manual format and available in the workplace.

Outcomes and performance criteria

Outcome 1

Apply control boning parameters to detained product in a meat processing operation.

Performance criteria

- 1.1 Apply control boning parameters for detained animal products in accordance with legislation.
- 1.2 Control boning and secure storage of detained animal product in terms of organisational requirements.
- 1.3 Maintain inventory records in terms of organisational requirements.
