------------------------	----------

Explanatory notes

Definitions

Site refers to one building or one part of a building when the requirements are different for different areas, for instance different wards of a hospital or different floors of a commercial building.

Security for the purposes of this unit standard is defined as the requirements put in place by the contractor to ensure the safety of the building, for example keys, swipe cards, alarms and codes.

Contract customers include the people covered by the cleaning contract for a specific site, such as office workers or mall staff.

Sensitive information includes information which is private to an individual or contract organisation.

Outcomes and evidence requirements

Outcome 1

Explain security requirements in the cleaning industry.

Range security requirements of two sites.

Evidence requirements

1.1 The explanations are in accordance with the security requirements for the selected sites.

1.2 The explanations include the implications of not following site specific security requirements.

Outcome 2

Explain emergency procedures.

Range emergency procedures for one site.

Evidence requirements

- 2.1 The explanation is in accordance with the emergency procedures for the selected site.

Outcome 3

Explain privacy requirements of contract customers in the cleaning industry.

Evidence requirements

- 3.1 The explanation identifies private items and sensitive information which might be visible to cleaning staff.

Range private items and sensitive information may include but are not limited to – family photos, documents on desks, patient notes, patient identity, customer notices.

- 3.2 The explanation includes the cleaner's responsibilities with regard to private items and sensitive information.

Range responsibilities may include but are not limited to confidentiality and respect for privacy.

Outcome 4

Apply security requirements of contract customers.

Range security and privacy requirements of two sites.

Evidence requirements

- 4.1 Site specific security requirements are applied for each of the selected sites.

Status information and last date for assessment for superseded versions

Process	Version	Date	Last Date for Assessment
Registration	1	17 July 2014	N/A

Consent and Moderation Requirements (CMR) reference	0004
--	------

This CMR can be accessed at <http://www.nzqa.govt.nz/framework/search/index.do>.

Please note

Providers must be granted consent to assess against standards (accredited) by NZQA, before they can report credits from assessment against unit standards or deliver courses of study leading to that assessment.

Industry Training Organisations must be granted consent to assess against standards by NZQA before they can register credits from assessment against unit standards.

Providers and Industry Training Organisations, which have been granted consent and which are assessing against unit standards must engage with the moderation system that applies to those standards.

Requirements for consent to assess and an outline of the moderation system that applies to this standard are outlined in the Consent and Moderation Requirements (CMR). The CMR also includes useful information about special requirements for organisations wishing to develop education and training programmes, such as minimum qualifications for tutors and assessors, and special resource requirements.
