- 2 Definitions

Dive plan refers to the procedures by which the accredited dive provider's diving operations are implemented for all dives required to meet this standard.

Industry technical and safety criteria refer to dive instruction, supervision and performance being carried out in accordance with the standards, procedures and training materials of the respective dive training agency. The agency must meet or exceed the World Recreational Scuba Training Council training standards.

Open water is any natural body of water realistic of local diving conditions in terms of water movement, temperature, visibility, depth and aquatic life.

Wreck refers to a shipwreck, wreckage defined as fragments of a ship or its cargo, remains of substantial manmade objects that have been ruined, or artificial reefs made from any hard structure.
